(a) The agreement will achieve one of the following purposes: (1) It will secure the use of a specialized medical resource which otherwise might not be feasibly available by providing for the mutual use or exchange of use of specialized medical resources when such an agreement will obviate the need for a similar resource to be installed or provided at a facility operated by the Department of Veterans Affairs, or

(c) Use of electronic equipment. Recent developments in electronic equipment shall be utilized under information sharing programs to provide a close educational, scientific, and professional link between Department of Veterans Affairs medical centers and major medical centers.

(d) Furnishing information services on a fee basis. The educational facilities and programs established at Department of Veterans Affairs Medical Centers and the electronic link to medical centers shall be made available for use by medical entities in the surrounding medical community which have not entered into sharing agreements with the Department of Veterans Affairs, in order to bring about utilization of all medical information in the surrounding medical community, particularly in remote areas, and to foster and encourage the widest possible cooperation and consultation among all members of the medical profession in the surrounding medical community.

(e) Establishing fees for information services. Subject to such terms and conditions as the Under Secretary for Health shall prescribe, Directors of Department of Veterans Affairs medical centers shall charge for information and educational facilities and services made available under paragraph (d) of this section. The financial status of any user of such services shall be taken into consideration in establishing the amount of the fee to be paid.
