§ 35.928–2 Use of industrial cost recovery payments.

(a) The grantee shall use industrial cost recovery payments received from industrial users as follows:

(1) The grantee shall return 50 percent of the amounts received from industrial users, together with any interest earned, to the U.S. Treasury annually.

(2) The grantee shall retain 50 percent of the amount recovered from industrial users.

(i) A portion of the amounts which the grantee retains may be used to pay the incremental costs of administration of the industrial cost recovery system. The incremental costs of administration are those costs remaining after deducting all costs reasonably attributable to the administration of the user charge system. The incremental costs shall be segregated from all other administrative costs of the grantee.

(ii) A minimum of 80 percent of the amounts the grantee retains after paying the incremental costs of administration, together with any interest earned, shall be used for the allowable costs (see §35.940) of any expansion, upgrading or reconstruction of treatment works necessary to meet the requirements of the Act. The grantee shall obtain the written approval of the Regional Administrator before the commitment of the amounts retained for expansion, upgrading, or reconstruction.

(iii) The remainder of the amounts retained by the grantee may be used as the grantee sees fit, except that they may not be used for construction of industrial pretreatment facilities or rebates to industrial users for costs incurred in complying with user charge or industrial cost recovery requirements.

(b) Pending the use of industrial cost recovery payments, as described in paragraph (a) of this section, the grantee shall:

(1) Invest the amounts received in obligations of the U.S. Government or in obligations guaranteed as to principal and interest by the U.S. Government or any agency thereof; or

(2) Deposit the amounts received in accounts fully collateralized by obligations of the U.S. Government or any agency thereof.

§ 35.928–3 Implementation of the industrial cost recovery system.

(a) When a grantee’s industrial cost recovery system is approved, implementation of the approved system shall become a condition of the grant.

(b) The grantee shall maintain all records that are necessary to document compliance with these regulations.

§ 35.928–4 Moratorium on industrial cost recovery payments.

(a) EPA does not require that industrial users defined in paragraphs (a) and (b) of the definition in §35.905 pay industrial cost recovery for charges incurred during the period after December 31, 1977, and before July 1, 1979. Any industrial cost recovery charges incurred for accounting periods or portions of periods ending before January 1, 1978, shall be paid by industrial users. These funds are to be used as described in §35.928–2.

(b) Grantees may either defer industrial cost recovery payments, or require industrial users as defined in paragraphs (a) and (b) of the definition in §35.905 to pay industrial cost recovery payments for the period after December 31, 1977, and before July 1, 1979. If grantees require payment, the amount held by the municipality for eventual return to the U.S. Treasury under §35.928–2(a)(1) shall be invested as required under §35.928–2(b) until EPA advises how such sums shall be distributed. Grantees shall implement or continue operating approved industrial cost recovery systems and maintain their activities of monitoring flows, calculating payments due, and submitting bills to industrial users informing them of their current or deferred obligation.

(c) Industrial users as defined in paragraphs (a) and (b) of the definition
Environmental Protection Agency

§ 35.929–1

in §35.905 who are served by grantees who defer payment during the 18-month period ending June 30, 1979, shall make industrial cost recovery payments for that period in a lump sum by June 30, 1980, or in equal annual installments prorated from July 1, 1979, over the remaining industrial cost recovery period.

§ 35.929 Requirements for user charge system.
The Regional Administrator shall approve the grantee’s user charge system and the grantee shall implement and maintain it in accordance with §35.935–13 and the requirements in §§35.929–1 through 35.929–3. The grantee shall be subject to the noncompliance provisions of §35.965 for failure to comply.

§ 35.929–1 Approval of the user charge system.
The Regional Administrator may approve a user charge system based on either actual use under paragraph (a) of this section or ad valorem taxes under paragraph (b) of this section. The general requirements in §§35.929–2 and 35.929–3 must also be satisfied.

(a) User charge system based on actual use. A grantee’s user charge system based on actual use (or estimated use) of waste water treatment services may be approved if each user (or user class) pays its proportionate share of operation and maintenance (including replacement) costs of treatment works within the grantee’s service area, based on the user’s proportionate contribution to the total waste water loading from all users (or user classes). To ensure a proportional distribution of operation and maintenance costs to each user (or user class), the user’s contribution shall be based on factors such as strength, volume, and delivery flow rate characteristics.

(b) User charges based on ad valorem taxes. A grantee’s user charge system (or the user charge system of a subscriber, i.e., a constituent community receiving waste water treatment services from the grantee) which is based on ad valorem taxes may be approved if it meets the requirements of paragraphs (b)(1) through (b)(7) of this section. If the Regional Administrator determines that the grantee did not have a dedicated ad valorem tax system on December 27, 1977, meeting the requirements of paragraphs (b)(1) through (b)(3) of this section, the grantee shall develop a user charge system based on actual use under §35.929–1(a).

(1) The grantee (or subscriber) had in existence on December 27, 1977, a system of ad valorem taxes which collected revenues to pay the cost of operation and maintenance of waste water treatment works within the grantee’s service area and has continued to use that system.

(2) The grantee (or subscriber) has not previously obtained approval of a user charge system on actual use.

(3) The system of ad valorem taxes in existence on December 27, 1977, was dedicated ad valorem tax system.

(i) A grantee’s system will be considered to be dedicated if the Regional Administrator determines that the system meets all of the following criteria:

(A) The ad valorem tax system provided for a separate tax rate or for the allocation of a portion of the taxes collected for payment of the grantee’s costs of waste water treatment services;

(B) The grantee’s budgeting and accounting procedures assured that a specified portion of the tax funds would be used for the payment of the costs of operation and maintenance;

(C) The ad valorem tax system collected tax funds for the costs of waste water treatment services which could not be or historically were not used for other purposes; and

(D) The authority responsible for the operation and maintenance of the treatment works established the budget for the costs of operation and maintenance and used those specified amounts solely to pay the costs of operation and maintenance.

(ii) A subscriber’s system based on ad valorem taxes will be considered to be dedicated if a contractual agreement or a charter established under State law existed on December 27, 1977, which required the subscriber to pay its share of the cost of waste water treatment services.

(4) A user charge system funded by dedicated ad valorem taxes shall establish, as a minimum, the classes of users listed below:
