and periodic reporting of emission data by sources.

(a) The owner or operator of any stationary source in the State of California, except for those APCD’s specified in paragraph (a) of this section, shall, upon notification from the Administrator, maintain records of the nature and amounts of emissions from such source and/or any other information as may be deemed necessary by the Administrator to determine whether such source is in compliance with applicable emission limitations or other control measures.

(1) Imperial County APCD.

(b) The following Air Pollution Control District (APCD) rules are disapproved because they contain the term “agricultural operations” and/or the term “other equipment in agricultural operations,” both of which are either undefined or inadequately defined, thus rendering certain emission control rules unenforceable:
