§ 52.276 Sulfur content of fuels.

(a) The following rules or portions of rules are disapproved since they represent a relaxation of previously submitted regulations and an adequate control strategy demonstration has not been submitted showing that the relaxation will not interfere with the attainment and maintenance of the National Ambient Air Quality Standards:

(1) Monterey Bay Unified APCD.
   (A) Rule 412(a)(8), Sulfur Content of Fuels, submitted on October 23, 1974.

(b) The deletion of the following rules from the State implementation plan is disapproved since their deletion represents a relaxation of the control strategy, and an adequate demonstration showing that the relaxation will not interfere with the attainment and maintenance of the national ambient air quality standards has not been submitted:

(1) Monterey Bay Unified APCD.
   (A) Rule 412(a)(8), Sulfur Content of Fuels, submitted on October 23, 1974.

§ 52.277 Oxides of nitrogen, combustion gas concentration limitations.

(a) The following rules are being retained to the extent that the new rules are less stringent than the previously approved rules:

(1) Monterey Bay Unified APCD.
   (A) Rule 404(c) submitted on February 21, 1972 by the Monterey-Santa
