§ 721.3000  Dicarboxylic acid monoester.

(a) Chemical substance and significant new uses subject to reporting. (1) The following chemical substance referred to by its premanufacture notice number and its generic chemical name is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section: dicarboxylic acid monoester, P-83–255.

(b) [Reserved]

[59 FR 27483, May 27, 1994]

§ 721.3000  Industrially, commercially, and consumer activities. Requirements as specified in §721.80(g).

(D) Release to water. Requirements as specified in §721.90 (a)(1), (b)(1), and (c)(1).

(ii) Specific requirements. The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(A) Recordkeeping. Recordkeeping requirements as specified in §721.125 (a) through (i) and (k) are applicable to manufacturers, importers, and processors of this substance.

(B) Limitations or revocation of certain notification requirements. The provisions of §721.185 apply to this section.

(C) Determining whether a specific use is subject to this section. The provisions of §721.1725(b)(1) apply to this section.

(2) The chemical substance identified as carboxylic acid glycidyl ester (PMN P-92–777) is subject to reporting under this section for the significant new uses described in this paragraph.

(i) The significant new uses are:

(A) Protection in the workplace. Requirements as specified in §721.63 (a)(1), (a)(2)(iii), (a)(3), (a)(4), (a)(5)(i) (§721.63(a)(5)(i) applies only during processing operations), (a)(5)(ii), (a)(5)(ii), (a)(5)(iv), (a)(5)(v), (a)(5)(vi), (a)(5)(vii), (a)(6)(i), (b) (concentration set at 0.1 percent), and (c). As an alternative to the respiratory requirements in this section, manufacturers, importers, and processors may use the New Chemical Exposure Limits provisions, including sampling and analytical methods which have previously been approved by EPA for this substance, found in the 5(e) consent order for this substance.

(B) Hazard communication program. Requirements as specified in §721.72 (a), (b), (c), (d), (e) (concentration set at 0.1 percent), (f), (g)(1)(i), (g)(1)(ii), (g)(1)(vi), (g)(1)(vii), (g)(2)(iii), (g)(2)(iv), (g)(2)(v), (g)(3)(i), (g)(3)(ii), (g)(4)(iii), and (g)(5).

(C) Industrially, commercially, and consumer activities. Requirements as specified in §721.80(g).

(D) Release to water. Requirements as specified in §721.90 (a)(1), (b)(1), and (c)(1).

(ii) Specific requirements. The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(A) Recordkeeping. Recordkeeping requirements as specified in §721.125 (a) through (i) and (k) are applicable to manufacturers, importers, and processors of this substance.

(B) Limitations or revocation of certain notification requirements. The provisions of §721.185 apply to this section.

(C) Determining whether a specific use is subject to this section. The provisions of §721.1725(b)(1) apply to this section.

(2) The significant new uses are:

(i) Any manufacture in the United States for commercial purposes.

(ii) Failure to require the use of gloves determined to be impervious to the substance, and/or failure to require the use of clothing to prevent dermal contact for any person involved in any processing or use operation where dermal contact may occur. (Gloves may be determined to be impervious to the substance either by testing the gloves under the conditions of use or by relying on the manufacturer’s specifications.)

(iii) Distribution in commerce by any person, including importers, processors, and distributors, without affixing to each container of any formulation containing the substance a label that includes, in letters no smaller than 10 point type, the following statements:

WARNING! HARMFUL IF INHALED OR ABSORBED THROUGH THE SKIN. MAY CAUSE REPRODUCTIVE EFFECTS.

—Do not get in eye, on skin, or clothing.

—Do not breathe (vapor, mist, spray, dust).

—Use with adequate ventilation.

—Wear impervious gloves and protective equipment to prevent contact or exposure.

Environmental Protection Agency

§721.3025 Fatty acids C<sub>12</sub>-<sub>18</sub>, C<sub>18</sub> unsaturated, C<sub>12</sub>-<sub>18</sub> alkyl esters (generic).

(a) Chemical substance and significant new uses subject to reporting. (1) The chemical substance identified generically as fatty acids C<sub>12</sub>-<sub>18</sub>, C<sub>18</sub> unsaturated, C<sub>12</sub>-<sub>18</sub> alkyl esters (PMNs P-94–697 through P-94–895) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(ii) Hazard communication program. A significant new use of these substances is any manner or method of manufacture, import, or processing associated with any use of these substances without providing risk notification as follows:

(A) If as a result of the test data required under the TSCA section 5(e) consent order for these substances, the employer becomes aware that these substances may present a risk of injury to human health or the environment, the employer must incorporate this new information, and any information on methods for protecting against such risk, into an MSDS as described in §721.72(c) within 90 days from the time
