§ 101–28.304 Item selection and stockage criteria.

§ 101–28.304–1 Types of items.

Items stocked in customer supply centers are based on customer agency requirements for common use expendable items. In addition to administrative type items commonly used in Government offices, janitorial supplies, handtools, and other industrial-type items are stocked when required to meet the mission-related needs of the activities supported by the CSC.

§ 101–28.304–2 Determining items to be stocked.

(a) Each CSC will stock administrative items normally required by Federal agencies for day-to-day operations. In addition to those items, each CSC will stock additional items as determined by the requirements of the activities within the geographic area it serves.

(b) Regional FSS offices will canvas customer agencies periodically to identify items for which there is an official need within their support area.

(c) Customer agencies may request that specific items be stocked by their support CSC. The request must be submitted in writing to the appropriate FSS Bureau Director and must be signed by a customer agency official at a level of responsibility (division director or higher) acceptable to the GSA Regional Administrator. All requests must indicate the expected monthly usage of the item requested. Each request will be evaluated and the submitting activity notified of the results of the evaluation.

§ 101–28.305 Prices of customer supply center items.

The selling price of a CSC item is an average price which is calculated automatically by the CSC computer at the time the item is ordered. Items stocked in CSCs that are obtained from GSA wholesale supply distribution facilities are input into the computer at the price in effect at the time of shipment from the facilities (this price is normally the price shown in the GSA Supply Catalog). Items stocked in CSCs that are not available from GSA wholesale supply distribution facilities but which are obtained from other Government supply sources or commercial sources are input into the computer at the invoice cost. Due to cost averaging, item prices listed in the CSC catalog may differ somewhat from the sale price for a particular transaction.

§ 101–28.306 Customer supply center (CSC) accounts and related controls.

(a) Eligible agencies should contact the GSA Regional Federal Supply Service Bureau to obtain full information on the use of the CSC for their locale. FSS Bureau personnel will provide assistance to agencies in the establishment of the CSC account, brief personnel on the use of the CSC to meet local, retail supply requirements, and provide copies of the CSC catalog.

(b) An appropriate level management official (division director of higher) authorized to obligate agency funds must sign the GSA Form 3525, Application for Customer Supply Services, requesting establishment of the CSC account for the activity.

(a) Orders are received by the CSC via phone, mail, electronic mail, or in person on a walk-in basis for urgent agency requirements. All use of the CSC is based upon the customer access
code assigned at the time of establishment of the activity account. The customer access code determines the ship-to point for orders placed with the CSC. The ship-to point cannot be changed, one established, except by the submission of a written request signed by an appropriate agency official.

(b) All orders placed with the CSC, except emergency pickup orders, described in §101–28.306–1(c), will be shipped to the activity placing the order via mail or small parcel carrier not later than the end of the next business day.

(c) Walk-in orders for urgent requirements are accepted and filled immediately provided the individual placing the order has proper identification. Telephone orders placed in the morning may be picked up in the afternoon of the same day provided that the individual picking up the order possesses proper identification and the order ticket number provided by the CSC personnel at the time the order is placed.

(a) Agencies shall establish internal controls to ensure that the use of the CSC account by the agency or other authorized activities is limited to the purchase of items for official Government use. The controls shall include written instructions that contain a statement prohibiting the use of the CSC account in acquiring items for other than Government use. When an agency makes a purchase of more than $500 per line item from a GSA customer supply center which is other than a similar lowest priced item available from a multiple-award schedule, GSA will assume that a justification has been prepared and made a part of the buying agency’s purchase file. Availability of products, regardless of the total amount of the line item price, does not relieve an agency of the responsibility to select the lowest priced item commensurate with needs of the agency.

(b) Office supplies needed by Members of Congress and the Delegate of the District of Columbia for use in their offices in the House or Senate Office Buildings should be obtained from the Senate and Houses Representatives supply rooms, as appropriate. Members of Congress, except for the Delegate of the District of Columbia, should limit their use of the CSCs to those located outside of the District of Columbia. The Delegate of the District of Columbia may obtain office supplies for the use of his or her district offices from the CSC serving the District of Columbia.

§ 101–28.306–4 Expiration or cancellation.

(a) CSC accounts established for Federal agencies or members of the Federal judiciary are valid for an indefinite period of time unless canceled by the Commissioner, FSS, GSA, or by a GSA Regional Administrator.

(b) CSC accounts established for authorized contractors or Members of Congress will contain an expiration date reflecting the termination date of the contract or term of office. New accounts will be established for reinstated contractors or reelected Members of Congress upon submission of a new application.

(c) Any CSC customer may request cancellation of his/her account when no longer required or whenever there is cause to believe that the customer access code has been compromised. Agencies shall keep GSA advised of any changes in organization or accounting structures that might have an impact on their CSC accounts.

(d) The Commissioner FSS, GSA, may periodically direct a nationwide purge of all CSC accounts to cancel those that are duplicates, not needed, or for which the customer access code has been compromised. Selective account cancellations may be directed by the GSA Regional Administrator in coordination with FSS Central Office. Under the procedures of a nationwide purge, CSC accounts become invalid as of a specific date established by the Commissioner, FSS, GSA, or by a Regional Administrator, and new CSC accounts are established upon receipt of new applications.

Agencies shall establish internal controls to ensure that the customer access codes assigned for their accounts are properly protected. It is by use of
