§ 102–192.70 The agency will have to determine the appropriate program level for this requirement, because the level at which it is cost-beneficial differs widely. The agency’s finance system(s) should track all mail costs separately to the program level or below, and should—

(a) Show allocations and expenses for postage and all other mail costs (e.g., payments to service providers, mail center personnel costs, mail center overhead, etc.) separate from all other administrative expenses;

(b) Allow mail centers to establish systems to charge their customers for mail costs; and

(c) Identify and charge mail costs that are part of printing contracts to the program level.

NOTE TO § 102–192.65: To better accomplish these goals listed in this section, you should maintain separate accounts with the USPS and all other service providers for mail, as defined by this part. Shipment of non-mail items should be arranged and paid for through other accounts. This will make it possible for your annual mail management report to reflect only amounts paid for mail, as defined in § 102–192.35.
