percent limitation on development and administrative costs and approve a higher percentage for a specific period of time not to exceed twelve months. The conditions under which a waiver will be considered are listed below and encompass those situations under which development and administrative costs are being incurred, but the provision of actual services has not begun or has been suspended. A waiver may be granted when:

(i) A new Head Start grantee or delegate agency is being established or services are being expanded by an existing Head Start grantee or delegate agency, and the delivery of component services to children and families is delayed until all program development and planning is well underway or completed; or

(ii) Component services are disrupted in an existing Head Start program due to circumstances not under the control of the grantee.

(2) A Head Start grantee that estimates that the cost of development and administration will exceed 15 percent of total approved costs must submit a request for a waiver that explains the reasons for exceeding the limitation. This must be done as soon as the grantee determines that it cannot comply with the 15 percent limit, regardless of where the grantee is within the grant funding cycle.

(3) The request for the waiver must include the period of time for which the waiver is requested. It must also describe the action the grantee will take to reduce its development and administrative costs so that the grantee will be able to assure that these costs will not exceed 15 percent of the total approved costs of the program after the completion of the waiver period.

(4) If granted, the waiver and the period of time for which it will be granted will be indicated on the Financial Assistance Award.

(5) If a waiver requested as a part of a grant application for funding or refunding is not approved, no Financial Assistance Award will be awarded to the Head Start program until the grantee resubmits a revised budget that complies with the 15 percent limitation.
