\section*{Coast Guard, DHS}

\subsection*{§ 164.012–12}

\subsection*{§ 164.012–10 Requirements.}

(a) For an “Interior Finish” to qualify under this specification it shall not be more than 0.075 inch thick (including adhesive and any underlayment) and shall be subjected to the test described in either standard listed in §164.012–1(a) (1) or (2). The “Interior Finish” shall be applied to a 1⁄4-inch asbestos cement board, “Bulkhead Panel” or “Incombustible Material” approved under subparts 164.008 and 164.009, in the same manner as will be employed for the shipboard installation. The classification ratings determined by this test shall not exceed the following values:

- Flame spread classification \( \geq 20 \)
- Smoke classification \( \geq 10 \)

\subsection*{§ 164.012–11 Marking.}

In addition to that information required by the recognized laboratory, the following information and special markings shall be included:

Complies with USCG subpart 164.012. Approval No. 164.012--.

\subsection*{§ 164.012–12 Recognized laboratory.}

A recognized laboratory is one which is operated as a nonprofit public service and is regularly engaged in the examination, testing, and evaluation as to the safety of insulation and surfacing materials; which has an established factory inspection, listing, and labeling program; and which has standards for evaluating listing and labeling which are acceptable to the Commandant. The following laboratories are recognized:
