§ 18.121
shall be filed with the EIC within 60 days of notification.
(b) The date for filing the final report may be extended by the Engineer in Charge when additional time is required to put into effect the corrective measures or to complete the investigation. The request for extension of time shall be accompanied by a progress report showing what has been accomplished to date.

§ 18.121 Exemptions.
Non-consumer ultrasonic equipment, and non-consumer magnetic resonance equipment, that is used for medical diagnostic and monitoring applications is subject only to the provisions of §§ 18.105, 18.109 through 18.119, 18.301 and 18.303 of this part.

§ 18.123 Transition provisions for compliance with the rules.
Consumer ISM devices, induction cooking ranges and ultrasonic equipment that are authorized under the certification, verification or declaration of conformity procedures on or after July 12, 2004 shall comply with the conducted limits specified in §18.307. All such devices that are manufactured or imported on or after July 11, 2005 shall comply with the conducted limits specified in §18.307. Equipment authorized, imported or manufactured prior to these dates shall comply with the conducted limits specified in §18.307 or with the conducted limits that were in effect immediately prior to September 9, 2002.

§ 18.207 Technical report.
When required by the Commission a technical report shall include at least the following information:
(a) A description of the measurement facilities in accordance with §2.948. If such a description is already on file with the Commission, it may be included by reference.
(b) A copy of the installation and operating instructions furnished to the user. A draft copy of such instructions may be submitted with the application, provided a copy of the actual document to be furnished to the user is submitted as soon as it is available, but no later than 60 days after the grant of the application.
(c) The full name and mailing address of the manufacturer of the device and/or applicant filing for the equipment authorization.
(d) The FCC Identifier, trade name(s), and/or model number(s) under which the equipment is or will be marketed.
(e) A statement of the rated technical parameters that includes:
(1) A block and schematic diagram of the circuitry.
(2) Nominal operating frequency.
(3) Maximum RF energy generated.
