

In the event a given delivery of a program qualifies both as a pay television transmission and subscription-on-demand, then for purposes of this subpart, such delivery shall be deemed subscription-on-demand rather than a pay television transmission.

(r) *Undefined business model* shall mean a business model that does not fall within the definition of a defined business model.

(s) *Unencrypted broadcast television* means any service, program, or schedule or group of programs, that is a substantially simultaneous retransmission of a broadcast transmission (*i.e.*, an over-the-air transmission for reception by the general public using radio frequencies allocated for that purpose) that is made by a terrestrial television broadcast station located within the country or territory in which the entity retransmitting such broadcast transmission also is located, where such broadcast transmission is not subject to a commercially-adopted access control method (e.g., is broadcast in the clear to members of the public receiving such broadcasts), regardless of whether such entity subjects such retransmission to an access control method.

(t) *Video-on-demand* shall mean a delivery of a single program or a specified group of programs for which:

(1) Each such individual program is generally uninterrupted by commercial advertising messages;

(2) Recipients are charged a separate fee for each such single program or specified group of programs; and

(3) A recipient is able, at his or her discretion, to select the time for commencement of exhibition of such individual program or specified group of programs. In the event a delivery qualifies as both video-on-demand and a pay television transmission, then for purposes of this subpart, such delivery shall be deemed video-on-demand.

[68 FR 66735, Nov. 28, 2003, as amended at 69 FR 4082, Jan. 28, 2004; 76 FR 40280, July 8, 2011]

§ 76.1903 Interfaces.

A covered entity shall not attach or embed data or information with commercial audiovisual content, or otherwise apply to, associate with, or allow

such data to persist in or remain associated with such content, so as to prevent its output through any analog or digital output authorized or permitted under license, law or regulation governing such covered product.

§ 76.1904 Encoding rules for defined business models.

(a) Commercial audiovisual content delivered as unencrypted broadcast television shall not be encoded so as to prevent or limit copying thereof by covered products or, to constrain the resolution of the image when output from a covered product.

(b) Except for a specific determination made by the Commission pursuant to a petition with respect to a defined business model other than unencrypted broadcast television, or an undefined business model subject to the procedures set forth in § 76.1906:

(1) Commercial audiovisual content shall not be encoded so as to prevent or limit copying thereof except as follows:

(i) To prevent or limit copying of video-on-demand or pay-per-view transmissions, subject to the requirements of paragraph (b)(2) of this section; and

(ii) To prevent or limit copying, other than first generation of copies, of pay television transmissions, non-premium subscription television, and free conditional access delivery transmissions; and

(2) With respect to any commercial audiovisual content delivered or transmitted in form of a video-on-demand or pay-per-view transmission, a covered entity shall not encode such content so as to prevent a covered product, without further authorization, from pausing such content up to 90 minutes from initial transmission by the covered entity (e.g., frame-by-frame, minute-by-minute, megabyte by megabyte).

§ 76.1905 Petitions to modify encoding rules for new services within defined business models.

(a) The encoding rules for defined business models in § 76.1904 reflect the conventional methods for packaging programs in the MVPD market as of December 31, 2002, and are presumed to be the appropriate rules for defined business models. A covered entity may
