§ 101.207
That the Commission may, at any
time, order the discontinuance of any
such emergency communication.
[61 FR 26677, May 28, 1996, as amended at 63
FR 68983, Dec. 14, 1998]

§ 101.207 Suspension of transmission.
Transmission must be suspended im-
mediately upon detection by the sta-
tion or operator licensee or upon noti-
ication by the Commission of a devi-
ation from the technical requirements
of the station authorization and must
remain suspended until such deviation
is corrected, except for transmission
concerning the immediate safety of life
or property, in which case transmission
must be suspended immediately after
the emergency is terminated.

§ 101.209 Operation of stations at tem-
porary fixed locations for commu-
nication between the United States
and Canada or Mexico.
Stations authorized to operate at
temporary fixed locations may not be
used for transmissions between the
United States and Canada, or the
United States and Mexico, without
prior specific notification to, and au-
thorization from, the Commission. No-
tification of such intended usage of the
facilities should include a detailed
showing of the operation proposed,
including the parties involved, the na-
ture of the communications to be han-
dled, the terms and conditions of such
operations, the time and place of oper-
ation, such other matters as the appli-
cant deems relevant, and a showing as
to how the public interest, convenience
and necessity would be served by the
proposed operation. Such notification
should be given sufficiently in advance
of the proposed date of operation to
permit any appropriate correlation
with the respective foreign government
involved (see §§101.31, 101.811, 101.813,
and 101.815).

§ 101.211 Operator requirements.
(a) Any person, with the consent or
authorization of the licensee, may em-
ploy stations in this service for the
purpose of telecommunications in ac-
cordance with the conditions and limi-
tations set forth in §101.135.
(b) The station licensee is responsible
for the proper operation of the station
at all times and is expected to provide
for observations, servicing and mainte-
nance as often as may be necessary to
ensure proper operation.
(c) The provisions of paragraph (a) of
this section may not be construed to
change or diminish in any respect the
responsibility of station licensees to
have and to maintain control over the
stations licensed to them (including all
transmitter units thereof), or for the
proper functioning and operation of
those stations (including all trans-
mitter units thereof) in accordance
with the terms of the licenses of those
stations.

§ 101.213 Station identification.
Stations in these services are exempt
from the requirement to identify trans-
missions by call sign or any other sta-
tion identifier.

§ 101.215 Posting of station authoriza-
tion and transmitter identification
cards, plates, or signs.
(a) Each licensee shall post at the
station the name, address and tele-
phone number of the custodian of the
station license or other authorization
if such license or authorization is not
maintained at the station.
(b) The requirements in paragraph (a)
of this section do not apply to remote
stations using frequencies listed in
§101.147(b).

§ 101.217 Station records.
Each licensee of a station subject to
this part shall maintain records in ac-
cordance with the following:
(a) For all stations, the results and
dates of transmitter measurements and
the name of the person or persons mak-
ing the measurements;
(b) For all stations, when service or
maintenance duties are performed,
which may affect their proper oper-
at
ion, the responsible operator shall
sign and date an entry in the station
record concerned, giving:
(1) Pertinent details of all trans-
mitter adjustments performed by him
or under his supervision; and
(2) His name and address, provided
that this information, so long as it re-
 mains unchanged, is not required to be
repeated in the case of a person who is
