(1) *Computer data base* means a collection of data recorded in a form capable of being processed by a computer. The term does not include computer software.

(2) *Computer program* means a set of instructions, rules, or routines recorded in a

form that is capable of causing a computer to perform a specific operation or series of operations.

(3) *Computer software* means computer programs, source code, source code listings, object code listings, design details, algorithms, processes, flow charts, formulae and related material that would enable the software to be reproduced, recreated, or recompiled. Computer software does not include computer data bases or computer software documentation.
