e) The contracting officer shall initiate the process for completing interim Reports within five (5) business days after the end of each 12 months of contract performance. The contracting officer shall initiate the process for completing a final Report within five (5) business days after the end of the last 12 months (or less) of contract performance. Final Reports must be completed prior to contract closeout.

(f) The contracting officer must complete interim and final Reports, including the project officer’s evaluation of contractor performance, receipt of any contractor input, and resolution of summary ratings (if any) within 90 business days from the date the contracting officer initiates the evaluation.

(g) Reports shall be used to inform other agencies and departments (upon request) about a contractor’s performance on an EPA contract, and to assist the contracting officer and the Technical Evaluation Panel with evaluating past performance for future EPA acquisitions.

(h) When evaluating proposals, contracting officers shall use the National Institutes of Health system to access Reports from other agencies or departments that are available in the National Institutes of Health database. Contracting Officers may need to access past performance information from other than the National Institutes of Health system if the National Institutes of Health system does not include applicable information.

(i) In accordance with FAR 42.1503(b), the ultimate conclusion on the performance evaluation is the decision of the Agency. The contracting officer must ensure the accuracy of ratings for each performance category by verifying that information in the contract file corresponds with the project officer’s designated ratings. A contractor’s performance evaluation should closely parallel award fee determinations made under the contract.

(j) In cases of novations involving successors-in-interest, a final evaluation of the predecessor contractor must be completed within five (5) business days after the end of the predecessor contractor’s performance, and an interim evaluation of the successor contractor must be completed within five (5) business days after the end of each 12 months of contract performance after the successor began performing. The original copy of completed Contractor Performance Reports (interim and final) shall be filed in each individual contractor’s official contract file. The National Institutes of Health Contractor Performance System will retain all reports for three (3) years after contract completion.

(b) Contractors’ performance ratings may be released to other Federal, State, and local Governments upon written request. The release to other Federal, State, and local Governments must stipulate that the information provided shall not be released outside of the requesting Government agency. In cases where the Federal agency is part of the National Institutes of Health Contract Performance System, a written request is not applicable.

(c) Freedom of Information Act requests shall be processed by the EPA Freedom of Information Act office where the contract is located. Requests
