Each report must—

(2) State the full name, title, and address of the official responsible for preparing the report;
(3) Identify the production year being reported on;
(4) Contain a statement regarding whether or not the manufacturer complied with the requirements of Standard No. 216a (49 CFR 571.216a) for the period covered by the report and the basis for that statement; and

A new manufacturer that has not previously manufactured these vehicles for sale in the United States must report the number of such vehicles manufactured during the current production year.

(2) Production. Each manufacturer must report for the production year for which the report is filed: the number of passenger cars, multipurpose passenger vehicles, trucks, and buses with a gross vehicle weight rating of 2,722 kilograms (6,000 pounds) or less that meet Standard No. 216a (49 CFR 571.216a). Each manufacturer must provide a statement regarding whether or not the manufacturer complied with the requirements of Standard No. 216a (49 CFR 571.216a) as applicable to the period covered by the report, and the basis for that statement. This statement must include an explanation concerning the use of any carry-forward credits.
