Surface Transportation Board, DOT

§ 1105.10

Office, local historical societies or universities;

(8) A description (based on readily available information in the railroad’s possession) of any known prior subsurface ground disturbance or fill, environmental conditions (naturally occurring or manmade) that might affect the archeological recovery of resources (such as swampy conditions or the presence of toxic wastes), and the surrounding terrain.

(9) Within 30 days of receipt of the historic report, the State Historic Preservation Officer may request the following additional information regarding specified nonrailroad owned properties or groups of properties immediately adjacent to the railroad right-of-way: photographs of specified properties that can be readily seen from the railroad right-of-way (or other public rights-of-way adjacent to the property) and a written description of any previously discovered archeological sites, identifying the location and type of the site (i.e., prehistoric or native American).

(e) Any of these requirements may be waived or modified when the information is not necessary to determine the presence of historic properties and the effect of the proposed action on them.

(f) Historic preservation conditions imposed by the Board in rail abandonment cases generally will not extend beyond the 330-day statutory period in 49 U.S.C. 10904 for abandonment proceedings.

§ 1105.10 Board procedures.

(a) Environmental Impact Statements—

(1) Prefiling Notice. Where an environmental impact statement is required or contemplated, the prospective applicant must provide the Section of Environmental Analysis with written notice of its forthcoming proposal at least 6 months prior to filing its application.

(2) Notice and scope of EIS. When an Environmental Impact Statement is prepared for a proposed action, the Board will publish in the FEDERAL REGISTER a notice of its intent to prepare an EIS, with a description of the proposed action and a request for written comments on the scope of the EIS. Where appropriate, the scoping process may include a meeting open to interested parties and the public. After considering the comments, the Board will publish a notice of the final scope of the EIS. If the Environmental Impact Statement is to be prepared in cooperation with other agencies, this notice will also indicate which agencies will be responsible for the various parts of the Statement.

(3) Notice of availability. The Board will serve copies of both the draft Environmental Impact Statement (or an appropriate summary) and the full final Environmental Impact Statement (or an appropriate summary) on all parties to the proceeding and on appropriate Federal, State, and local agencies. A
