§ 648.92 Effort-control program for monkfish limited access vessels.

(a) General. A vessel issued a limited access monkfish permit may not fish for, possess, retain, or land monkfish except during a DAS as allocated under the requirements of § 648.23.

(b) Gear restrictions. A vessel issued a limited access monkfish permit may not fish for, retain, or land monkfish while on a monkfish DAS with gear other than:

(i) Gillnets while on a monkfish and NE multispecies DAS. Gillnets used by a vessel fishing under a monkfish and NE multispecies DAS may only fish with and use a trawl net with a mesh size no smaller than that specified in paragraph (c)(1)(i) of this section.

(ii) Trawl nets while on a monkfish and NE multispecies DAS. Trawl vessels participating in the Offshore Fishery Program, as described in § 648.95, and that have been issued a Category F monkfish limited access permit, are subject to the mesh size specified in paragraph (c)(1)(i) of this section.

(iii) Gillnets while on a monkfish DAS. The minimum mesh size for any gillnets used by a vessel fishing under a monkfish DAS is 10-inch (25.4-cm) diamond mesh, unless otherwise provided for under § 648.92(b)(1)(iii)(B).

(iv) Authorized gear while on a monkfish and scallop DAS. A vessel issued a Category C, D, G, or H limited access monkfish permit and fishing under a monkfish and scallop DAS may only fish with and use a trawl net with a mesh size no smaller than that specified in paragraph (c)(1)(i) of this section.

and in accordance with the applicable DAS program described in this section, except as otherwise provided in this part.

(1) **End of year carryover.** With the exception of a vessel that held a Confirmation of Permit History, as described in §648.4(a)(1)(i)(J), for the entire fishing year preceding the carryover year, a limited access monkfish vessel that has unused monkfish DAS on the last day of April of any year may carry over a maximum of 4 unused monkfish DAS into the next fishing year. A vessel whose DAS have been sanctioned through enforcement proceedings shall be credited with unused DAS based on its DAS allocation minus any DAS that have been sanctioned.

(2) **Reserved**

(b) **Monkfish DAS program—permit categories and allocations—(1) Limited access monkfish permit holders—(i) General provision.** Limited access monkfish permit holders shall be allocated 31 monkfish DAS each fishing year to be used in accordance with the restrictions of this paragraph (b), unless otherwise restricted by paragraph (b)(1)(ii) of this section or modified by §648.96(b)(3), or unless the vessel is enrolled in the Offshore Fishery Program in the SFMA, as specified in paragraph (b)(1)(iv) of this section. The annual allocation of monkfish DAS shall be reduced by the amount calculated in paragraph (b)(1)(v) of this section for the research DAS set-aside. Limited access NE multispecies and limited access sea scallop permit holders who also possess a limited access monkfish permit must use a NE multispecies or sea scallop DAS concurrently with each monkfish DAS utilized, except as provided in paragraph (b)(2)(i) of this section, unless otherwise specified under this subpart F.

(ii) **DAS restrictions for vessels fishing in the SFMA.** Limited access monkfish vessels may only use 28 of their 31 monkfish DAS allocation in the SFMA. All limited access monkfish vessels fishing in the SFMA must declare that they are fishing in this area through the vessel call-in system or VMS prior to the start of every trip. In addition, if a vessel does not possess a valid letter of authorization from the Regional Administrator to fish in the NFMA as described in §648.94(f), NMFS shall presume that any monkfish DAS used were fished in the SFMA.

(iii) **DAS declaration provision for vessels fishing in the NFMA with a VMS unit.** Any limited access NE multispecies vessel fishing on a sector trip or under a NE multispecies Category A DAS in the NFMA, and issued an LOA as specified in §648.94(f), may change its DAS declaration to a monkfish DAS through the vessel’s VMS unit during the course of the trip after leaving port, but prior to crossing the VMS demarcation line upon its return to port or leaving the NFMA, if the vessel exceeds the incidental catch limit specified under §648.94(c).

(A) Vessels that change their DAS declaration from a NE multispecies Category A DAS to a monkfish DAS during the course of a trip remain subject to the NE multispecies DAS usage requirements (i.e., use a NE multispecies Category A DAS in conjunction with the monkfish DAS) described in paragraph (b)(2)(i) of this section.

(B) Gillnet vessels that change their DAS declaration in accordance with this paragraph (b)(1)(iii) are not subject to the gillnet minimum mesh size restrictions found at §648.91(c)(1)(ii), but are subject to the smaller NE multispecies minimum mesh requirements for gillnet vessels found under §648.80 based upon the NE Multispecies Regulated Mesh Area in which the vessel is fishing.

(iv) **Offshore Fishery Program DAS allocation.** A vessel issued a Category F permit, as described in §648.95, shall be allocated a prorated number of monkfish DAS as specified in §648.95(g)(2).

(v) **Research DAS set-aside.** A total of 500 DAS shall be set aside and made available for cooperative research programs as described in paragraph (c) of this section. These DAS shall be deducted from the total number of DAS allocated to all monkfish limited access permit holders, as specified under paragraph (b)(1)(i) of this section. A per vessel deduction shall be determined as follows: Allocated DAS minus the quotient of 500 DAS divided by the total number of limited access permits issued in the previous fishing year. For example, if the DAS allocation equals
§ 648.92

31 DAS and there were 750 limited access monkfish permits issued during FY 2006, the number of DAS allocated to each vessel during FY 2007 would be 31 DAS minus 0.7 (500 DAS divided by 750 permits), or 30.3 DAS.

(ii) Category C, D, F, G, or H vessels that lease NE multispecies DAS. (A) A monkfish Category C, D, F, G, or H vessel that has “monkfish-only” DAS, as specified in paragraph (b)(2)(i) of this section, and that leases NE multispecies DAS from another vessel pursuant to §648.82(k), is required to fish its available “monkfish-only” DAS in conjunction with its leased NE multispecies DAS, to the extent that the vessel has NE multispecies DAS available.

(B) A monkfish Category C, D, F, G, or H vessel that leases DAS to another vessel(s), pursuant to §648.82(k), must forfeit a monkfish DAS for each NE multispecies DAS that the vessel leases, equal in number to the difference between the number of remaining NE multispecies DAS and the number of unused monkfish DAS at the time of the lease. For example, if a lessee vessel, which had 31 unused monkfish DAS and 35 allocated NE multispecies DAS, leased 10 of its NE multispecies DAS to another vessel, the lessee would forfeit 6 of its monkfish DAS (35 NE multispecies DAS - 31 monkfish DAS = 6).

Category C, D, F, G, and H vessels that possess a limited access NE multispecies permit. A vessel issued a valid monkfish limited access Category C, D,
F, G, or H permit that possesses a valid limited access NE multispecies permit and fishing under a monkfish DAS may not fish with, haul, possess, or deploy more than 150 gillnets. A vessel issued a NE multispecies limited access permit and a limited access monkfish permit, and fishing under a monkfish DAS, may fish any combination of monkfish, roundfish, and flatfish gillnets, up to 150 nets total, provided that the number of monkfish, roundfish, and flatfish gillnets is consistent with the limitations of §648.82. Nets may not be longer than 300 ft (91.4 m), or 50 fathoms, in length.

(ii) **Tagging requirements.** Beginning May 1, 2000, all gillnets fished, hauled, possessed, or deployed by a vessel fishing for monkfish under a monkfish DAS must have one monkfish tag per net, with one tag secured to every other bridle of every net within a string of nets. Tags must be obtained as described in §648.4. A vessel operator must account for all net tags upon request by an authorized officer.

(iii) **Lost tags.** A vessel owner or operator must report lost, destroyed, or missing tag numbers by letter or fax to the Regional Administrator within 24 hours after tags have been discovered lost, destroyed, or missing.

(iv) **Replacement tags.** A vessel owner or operator seeking replacement of lost, destroyed, or missing tags must request replacement tags by letter or fax to the Regional Administrator. A check for the cost of the replacement tags must be received before the tags will be re-issued.

(v) **Method of counting DAS.** A vessel fishing with gillnet gear under a monkfish DAS shall accrue 15 hours monkfish DAS for all trips less than or equal to 15 hours in duration. Such vessels shall accrue monkfish DAS based on actual time at sea for trips greater than 15 hours in duration. A vessel fishing with gillnet gear under only a monkfish DAS is not required to remove gillnet gear from the water upon returning to the dock and calling out of the DAS program, provided the vessel complies with the requirements and conditions of paragraphs (b)(8)(i)–(v) of this section. A vessel fishing with gillnet gear under a joint monkfish and NE multispecies DAS, as required under §648.92(b)(2)(i), that is declared as a trip gillnet vessel under the NE Multispecies FMP, must remove its gillnet gear from the water prior to calling out of the DAS program, as specified at §648.82(j)(2).

(9) **Category G and H limited access permit holders.** (i) Vessels issued monkfish limited access Category G or H permits may only fish under a monkfish DAS in the area south of 38°40’ N. lat.

(ii) Vessels issued valid limited access monkfish Category G or H permit that also possess a limited access NE multispecies or limited access scallop permit are subject to the same provisions as Category C or D vessels, respectively, unless otherwise stated under this subpart F.

(10) **DAS Adjustment for Trip Limit Overage.** Any limited access monkfish vessel, required to or voluntarily using a VMS, fishing on a monkfish DAS may land up to the equivalent of one additional day’s worth of its trip limit (i.e., amount of monkfish authorized per DAS) than would otherwise be authorized, provided the vessel, vessel owner, or vessel operator notifies the Regional Administrator of the overage via VMS prior to crossing the VMS demarcation line. If the vessel is not required to be, or is not equipped with an operable VMS, the vessel vessel operator, or owner must notify the Regional Administrator via the call-in system at least 1-hr prior to landing. The monkfish DAS charged to the vessel will then be increased to equal a full 24-hr period plus 1 minute to account for the trip limit overage. For example, if a vessel has the equivalent of two monkfish DAS trip limits (based on its permit category) on board, but has only been declared into the monkfish DAS program for 15 hr, the vessel, vessel owner, or vessel operator may land fish equal to the two DAS trip limits only if the Regional Administrator of the overage is notified via VMS or the call-in system as described above. In this case, the monkfish DAS charged to the vessel would be adjusted from 15 hr to 24 hr and 1 minute.

(c) **Monkfish Research—(1) DAS Set-Aside Program.** (i) NMFS shall publish a Request for Proposals (RFP) in the Federal Register consistent with procedures and requirements established
by the NOAA Grants Office to solicit proposals for the upcoming fishing year that are based on research priorities identified by the Councils.

(ii) NMFS shall convene a review panel that may include members of the Councils’ Monkfish Oversight Committee, the Council’s Research Steering Committee, and other subject matter experts, to review proposals submitted in response to the RFP.

(A) Each panel member shall recommend which research proposals should be authorized to utilize the research DAS set aside in accordance with paragraph (b)(1)(iv) of this section, based on the selection criteria described in the RFP.

(B) NMFS and the NOAA Grants Office shall consider each panel member’s recommendation, and NOAA shall provide final approval of the projects, and notify applicants of the grant award through written notification to the project proponent. The Regional Administrator may exempt selected vessel(s) from regulations specified in each of the respective FMPs through the exempted fishing permit (EFP) process specified under §600.745(b)(2).

(iii) The grant awards approved under the RFPs shall be for the upcoming fishing year. Proposals to fund research that would start prior to the fishing year are not eligible for consideration. Multi-year grant awards may be approved under an RFP for an upcoming fishing year, so long as the research DAS available under subsequent RFPs are adjusted to account for the approval of multi-year awards.

(iv) Research projects shall be conducted in accordance with provisions approved and provided in an EFP issued by the Regional Administrator, as authorized under §600.745(b)(2).

(v) If the Regional Administrator determines that the annual allocation of research DAS will not be used in its entirety once all of the grant awards have been approved, the Regional Administrator shall reallocate the unallocated research DAS as exempted DAS to be authorized as described in paragraph (c)(2) of this section, and provide notice of the reallocation of DAS in the Federal Register. Any allocated research DAS that are not used during the fishing year for which they are granted may be carried over into the next fishing year. Any unallocated research DAS may not be carried over into the next fishing year.

(vi) For proposals that require other regulatory exemptions that extend beyond the scope of the analysis contained in the Monkfish FMP, subsequent amendments, or framework adjustments, applicants may be required to provide additional analysis of the impacts of the requested exemptions before issuance of an EFP will be considered.

(2) DAS Exemption Program. (i) Vessels that seek to conduct monkfish research within the current fishing year, and that were not selected in the RFP process during the previous fishing year, may seek exemptions from monkfish DAS for the purpose of conducting exempted fishing activities, as authorized at §600.745(b), under the following conditions and restrictions:

(A) The request for a monkfish DAS exemption must be submitted along with a complete application for an EFP to the Regional Administrator. The requirements for submitting a complete EFP application are provided in §600.745(b)(2);

(B) Exempted DAS must be available for usage. Exempted DAS shall only be made available by the Regional Administrator if it is determined that the annual set-aside of research DAS will not be used in its entirety, as described in paragraph (c)(1)(v) of this section. If exempted DAS are not available for usage, the applicant may continue to seek an exemption from monkfish DAS, but may be required to conduct an analysis of the impacts associated with the monkfish DAS exemption request before issuance of the EFP application will be considered; and

(C) For EFP applications that require other regulatory exemptions that extend beyond the scope of the analysis contained in the Monkfish FMP, subsequent amendments, or framework adjustments, applicants may be required to provide additional analysis of the impacts of the requested exemptions before issuance of an EFP will be considered.

(ii) Monkfish DAS exemption requests shall be reviewed and approved
§ 648.93 Monkfish minimum fish sizes.

(a) General provisions. (1) All monkfish caught by vessels issued a valid Federal monkfish permit must meet the minimum fish size requirements established in this section.

<table>
<thead>
<tr>
<th>MINIMUM FISH SIZES (Total Length/Tail Length)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total Length</td>
</tr>
<tr>
<td>17 inches (43.2 cm)</td>
</tr>
</tbody>
</table>

(2) The minimum fish size applies to the whole fish (total length) or to the tail of a fish (tail length) at the time of landing. Fish or parts of fish, with the exception of cheeks and livers, must have skin on while possessed on board a vessel and at the time of landing in order to meet minimum size requirements. "Skin on" means the entire portion of the skin normally attached to the portion of the fish or fish parts possessed. Monkfish tails are measured from the anterior portion of the fourth cephalic dorsal spine to the end of the caudal fin. Any tissue anterior to the fourth dorsal spine is ignored. If the fourth dorsal spine or the tail is not intact, the minimum size is measured between the most anterior vertebra and the most posterior portion of the tail.

(b) Minimum fish size. The minimum fish size for all vessels is 17 inches (43.2 cm) total length or 11 inches (27.9 cm) tail length.

§ 648.94 Monkfish possession and landing restrictions.

(a) General. Monkfish may be possessed or landed either as tails only, tails with associated heads possessed separately, or in whole form (head on and gutted), or any combination of the three provided the weight of monkfish heads on board does not exceed 1.91 times the weight of monkfish tails on board. When any combination of tails, and whole fish are possessed or landed, the possession or landing limit shall be based on tail weight where all whole monkfish (head on and gutted) are converted to tail weight using the conversion factor of 2.91. For example, whole weight is converted to tail weight by dividing the whole weight by 2.91. Conversely, tail weight is converted to whole weight by multiplying the tail weight by 2.91. If heads only are possessed in combination with tails, the possession or landing limit for monkfish heads may not exceed 1.91 times the tail weight of fish on board, excluding any whole monkfish. The allowed amount of head weight is determined by multiplying the tail weight by 1.91. For example a vessel possessing 100 lb (45 kg) of tail weight may possess an additional 191 lb (87 kg) of monkfish heads (100 × 1.91 = 191). A vessel may not possess heads only without possessing the equivalent weight of tails allowed by using the conversion factor.

(b) Vessels issued limited access monkfish permits—(1) Vessels fishing under the monkfish DAS program in the NFMA—(i) Category A and C vessels. Limited access monkfish Category A and C vessels that fish under a monkfish DAS exclusively in the NFMA may land up to 1,250 lb (567 kg) tail weight or 3,638 lb (1,650 kg) whole weight of monkfish per DAS (or any prorated combination of tail weight and whole weight based on the conversion factor for tail weight to whole weight of 2.91). For every 1 lb (0.45 kg) of tail only weight landed, the vessel may land up to 1.91 lb (0.87 kg) of monkfish heads only, as described in paragraph (a) of this section.

(ii) Category B and D vessels. Limited access monkfish Category B and D vessels that fish under a monkfish DAS exclusively in the NFMA may land up to 470 lb (213 kg) tail weight or 1,368 lb (621 kg) whole weight of monkfish per DAS (or any prorated combination of tail weight and whole weight based on the conversion factor for tail weight to whole weight of 2.91). For every 1 lb (0.45 kg) of tail only weight landed, the vessel may land up to 1.91 lb (0.87 kg) of monkfish heads only, as described in paragraph (a) of this section.
