in paragraph (b)(4) by the shot or shot coating must not be significantly greater than those caused by steel shot. Percentage data is subject to an arcsine, square root transformation prior to statistical analyses. Physiological and reproductive data is analyzed by one-tailed $t$-tests ($a=0.05$), or other appropriate statistical procedures by the applicant.

(ii) After conclusion of Tier 3 testing, the applicant must report the results to the Director. If after review of the Tier 3 data (completion 60 days after receipt of material) the Service determines that all of the information gathered and submitted in accordance with Tiers 1, 2, and 3, as applicable, does not establish that the shot or shot coating does not impose a significant danger to migratory birds, other wildlife, and their habitats, the applicant will have the option of repeating the tests that the Director deems are inconclusive. If the applicant chooses not to repeat the tests, approval of the candidate shot or shot coating is denied. A Notice of Review will inform the public that Tier 3 results are inconclusive, the applicant’s decision not to repeat Tier 3 testing, and the Service’s subsequent denial of the shot or shot coating.

(iii) If review of either the initial or repeated Tier 3 test data results in a preliminary determination that the shot or shot coating does not impose a significant danger to migratory birds, other wildlife, and their habitats, the Director will publish in the Federal Register a proposed rule stating the Service’s intention to approve this shot or shot coating and providing the public with the opportunity to comment. The rulemaking will include a description of the chemical composition of the shot or shot coating and a synopsis of findings under the standards required by Tier 3. If at the end of the comment period, the Service concludes that the shot or shot coating does not impose a significant danger to migratory birds, other wildlife, or their habitats, the shot or shot coating will be approved as nontoxic with publication of a final rule in the Federal Register.

(5) Residual lead levels. The Service’s maximum environmentally acceptable level of lead in shot is trace amounts or <1 percent. Any shot manufactured with lead levels equal to or exceeding 1 percent are considered toxic and, therefore, illegal.

(6) Field detection device. Before approval of any shot for use in migratory game bird hunting, a noninvasive field testing device must be available for enforcement officers to determine the shot material in a given shell in the field.

(Information collection requirements approved by the Office of Management and Budget under control no. 1018–0067)

§ 20.154 Flyway Councils.

(a) Notice of meetings. Notice of each meeting of a Flyway Council to be attended by any official of the Department will be published in the Federal Register at least two weeks before the meeting or as soon as practicable after the Department learns of the meeting. The notice will state the time, place, and general subject(s) of the meeting.

(b) Public observation and written comment. Each meeting of the Regulations Committee for which notice is published pursuant to paragraph (a) of this section will be open to the public for observation and the submission of written comments.

(c) Public participation. Except for the mid-summer meetings held in Washington, DC, in conjunction with the public hearing on waterfowl and other late season frameworks, the public may participate in any meeting of the Regulations Committee for which notice is published pursuant to paragraph (a) of this section through the submission of oral statements that comply with the rules stated in the notice.

(d) Minutes of meetings. Minutes will be made of each meeting of the Regulations Committee for which notice is published pursuant to paragraph (a) of this section.

§ 20.155 Public file.

(a) Establishment. A public file will be established for each rulemaking to which this subpart N is applicable.

(b) Contents. Except for information exempt from disclosure under 5 U.S.C. 552, a public file established pursuant to paragraph (a) of this section will contain:

(1) The minutes of Regulations Committee meetings made pursuant to paragraph (d) of § 20.153;

(2) Any written comments and other significant written communications which occur after the notice of proposed rulemaking;

(3) Summaries, identifying the source, of any significant oral communications which occur after the notice of proposed rulemaking; and

(4) Copies of or references to any other significant data or information.

PART 21—MIGRATORY BIRD PERMITS

Subpart A—Introduction

Sec.
21.1 Purpose of regulations.
21.2 Scope of regulations.
21.3 Definitions.
21.4 Information collection requirements.

Subpart B—General Requirements and Exceptions

21.11 General permit requirements.
21.12 General exceptions to permit requirements.
21.13 Permit exceptions for captive-reared mallard ducks.
21.14 Permit exceptions for captive-bred migratory waterfowl other than mallard ducks.
21.15 Authorization of take incidental to military readiness activities.

Subpart C—Specific Permit Provisions

21.21 Import and export permits.
21.22 Banding or marking permits.
21.23 Scientific collecting permits.
21.24 Taxidermist permits.
21.25 Waterfowl sale and disposal permits.
21.26 Special Canada goose permit.
21.27 Special purpose permits.
21.28 [Reserved]
21.29 Falconry standards and falconry permitting.
21.30 Raptor propagation permits.
21.31 Rehabilitation permits.

Subpart D—Control of Depredating and Otherwise Injurious Birds

21.41 Depredation permits.
21.42 Authority to issue depredating orders to permit the killing of migratory game birds.
21.43 Depredation order for blackbirds, cowbirds, grackles, crows, and magpies.
21.44 Depredation order for designated species of depredating birds in California.
21.45 Depredation order for depredating purple gallinules in Louisiana.
21.46 Depredation order for depredating scrub jays and Steller’s jays in Washington and Oregon.
21.47 Depredation order for double-crested cormorants at aquaculture facilities.
