§ 1421.107 Warehouse receipts.

(a) Warehouse receipts tendered to CCC under §1421.3 for marketing assistance loans must meet the provisions of this section and all other provisions of this part, and CCC program documents.

(b) Warehouse receipts must be issued in the name of the eligible producer or CCC. If issued in the name of the eligible producer, the receipt must be properly endorsed on its reverse side certifying that the crop is free of encumbrances in order for title to vest in the holder. Receipts must be issued by an authorized warehouse and must represent a commodity that is deemed to be stored commingled. The receipts must be negotiable and must represent a commodity that is the same quantity and quality as the eligible commodity actually in storage in the warehouse of the original deposit.

(c) If the receipt is issued for a commodity that is owned by the warehouse operator either solely, jointly, or in common with others, the fact of such ownership shall be stated on the receipt. In States where the pledge of warehouse receipts issued by a warehouse operator on the warehouse operator’s commodity is invalid, the warehouse operator may offer the commodity to CCC for a marketing assistance loan if such warehouse is licensed under the U.S. Warehouse Act.

(d) Each warehouse receipt or accompanying supplemental certificate representing a commodity stored in an authorized warehouse must indicate that the commodity is insured. CCC shall not be responsible for the cost of such insurance.

(e) A separate warehouse receipt must be submitted for each grade and class of any commodity tendered to CCC and, for rice, such receipt must also state the milling yield of the rice, and for wool, such receipts must also state the yield and micron of the wool.

If a warehouse receipt indicates that the commodity tendered for loan grades “infested” or “contains excess moisture”, or both, the receipt must be accompanied by a supplemental certificate in order for the commodity to be eligible for a marketing assistance loan. The grade, grading factors, and quantity to be delivered must be shown on the certificate as follows:

1. When the warehouse receipt shows “infested” and the commodity has been conditioned to correct the infested condition, the supplemental certificate must show the same grade without the “infested” designation and the same grading factors and quantity as shown on the warehouse receipt.
