(iii) Commodities on which a loan deficiency payment has been received.

(2) The commodity repledged as security for the subsequent loan shall have the same maturity date, under §1421.101 as the original loan.

(c)(1) The marketing assistance loan documents shall not be presented for disbursement unless the commodity subject to the note and security agreement is an eligible harvested commodity, is in existence, and is in authorized farm or warehouse storage, as determined by CCC. If the commodity was not either an eligible commodity, in existence, or in authorized storage at the time of disbursement, the total amount disbursed under the marketing assistance loan and charges plus interest shall be refunded promptly by the producer.

(2) CCC shall limit the total marketing assistance loan quantity for a loan disbursement, or loan deficiency payment quantity for a loan deficiency payment application, based on a subsequent increase in the quantity of an eligible commodity by the final loan availability date to 100 percent of the outstanding quantity of such marketing assistance loan or loan deficiency payment application. A producer may obtain a separate marketing assistance loan or loan deficiency payment before the final loan availability date for the commodity for quantities in excess of 100 percent of such quantity if such quantities are otherwise eligible.

§1421.9 Basic loan rates.

(a) Basic marketing assistance loan rates for a commodity may be established on a National, State, regional, county basis or other basis, will be at rates that comply with applicable statutes, and may be adjusted by CCC to reflect grade, type, quality, location and other factors applicable to the commodity and as otherwise provided in this section.

For the 2008 crop year only, warehouse-stored loans will be disbursed at levels based on the basic county marketing assistance loan rate for the county where the commodity is stored, adjusted for the schedule of premiums and discounts established for the commodity on the basis of grade, type, and quality factors set forth on warehouse receipts or supplemental certificates and for other factors, as determined and announced by CCC.

(e) Adjustments by the Secretary to establish loan rates for loan commodities, except rice, on a county basis will not be lower than 95 percent of the national average loan rate, if those loan rates do not result in an increase in outlays. Adjustments in this section will not result in an increase in the national average loan rate for any year.

(f) For the 2009 through 2012 crops, producers on farms in the Acreage Crop Revenue Election program under part 1400 of this title will receive a 30 percent reduction in loan rate as established under this section for all loan commodities from the farm, except honey, wool, and mohair.

(g) For the 2009 through 2012 crop years, premiums and discounts will not be applicable for all eligible loan commodities, except for peanuts, at loan disbursement; however, premiums and discounts will apply if the eligible loan commodities are forfeited and delivered to CCC and any deficiency must be repaid to CCC.
