Commodity Credit Corporation, USDA § 1435.306

(3) The ability to market the sugar covered under the allotment assigned to the State.

(e) Past marketings and past processings will each be weighted by 0.25 and the ability to market will be weighted by 0.50 in determining the States’ respective cane sugar allotments. The weights may be adjusted, as CCC deems appropriate, for the crop year.

(f) Except when deficits are reassigned as provided in §1435.309, a processor may fill an allocation of a cane sugar allotment only with sugar processed from sugarcane grown in the State for which the allotment was established.

§ 1435.306 Allocation of marketing allotments to processors.

(a) Each sugar beet processor’s allocation, other than a new entrant’s, of the beet allotment will be calculated as the beet processor’s share times the beet sector allotment:

(1) A beet processor’s share is calculated as the beet processor’s adjusted weighted average sugar production divided by the sum of all beet processors’ adjusted weighted average sugar production.

(2) A beet processor’s weighted average sugar production equals 0.25 times its 1998-crop sugar production plus 0.35 times its 1999-crop sugar production plus 0.40 times its 2000-crop sugar production, with the 2000 sugar PIK payments added to its 2000-crop sugar production.

(3) A beet processor’s weighted average sugar production shall be adjusted by the following, as CCC determines:

(i) Increased 1.25 percent of the sum of all beet processors’ weighted average sugar production for opening a sugar beet processing factory during the 1996 through 2000 crop years;

(ii) Decreased 1.25 percent of the sum of beet processors’ weighted average sugar production for closing a sugar beet processing factory during the 1998 through 2000 crop years;

(iii) Increased 0.25 percent of the sum of all beet processors’ weighted average sugar production for opening a molasses desugarization facility during the 1998 through 2000 crop years; and

(iv) Increased 1.25 percent of the sum of all beet processors’ weighted average sugar production for suffering a substantial quality loss on stored beets, as CCC determines, during the 1998 through 2000 crop years.

(b) Each sugarcane processor’s, other than a new entrant’s, allocation from a State cane sugar allotment will be calculated as the cane processor’s share times the State cane sector allotment.

(1) Each cane processor’s share will be calculated as the processor’s production base divided by the sum of the State’s processor production bases.

(2) A processor’s production base is the sum of 0.50 times its ability to market plus 0.25 times its past processings plus 0.25 times its past marketings. These weights may be adjusted as CCC deems appropriate for the crop year.

(c) An informal hearing will be held in August of each year, if requested by affected sugarcane processors and growers by July 15th, to afford all interested persons the opportunity to comment on the next crop year’s marketing allotments and allocations. After consideration of comments obtained at the hearing, a final determination on cane State allotments and processor allocations will be announced.

(d) During any crop year in which marketing allotments are in effect and allocated to processors, the quantity of sugar and sugar products that a processor markets shall not exceed the quantity of the processor’s allocation.

(e) Paragraph (d) of this section will not apply to:

(1) Any sugar marketings to facilitate the export of sugar or sugar-containing products as long as such exports are not eligible to receive credits under reexport programs administered by the Foreign Agricultural Service for refined sugar or sugar-containing products;

(2) Any sugar marketings for nonhuman consumption, except for the sale of sugar for the production of ethanol or other bioenergy under the Feedstock Flexibility program or the sale of sugar for the production of polyhydric alcohol under the
§ 1435.307 Transfer of allocation.

(a) If a sugarcane processing facility is sold or transferred to another owner or is closed as part of a corporate consolidation CCC will transfer the allotment allocation to the purchaser or successor.

(b) In proportionate share States, allocations, based on the number of acres of sugarcane base being transferred and the pro rata amount reflecting the grower’s contribution to allocation of the processor for the sugarcane base being transferred, will be transferred between facilities if the transfers are based on:

(1) Written consent of the crop-share owners, or their representatives,

(2) Written certification from the processor that will accept the additional sugarcane deliveries that its processing capacity will not be exceeded,

(3) CCC will only consider requests for transfer of allocation submitted during the month of May. The request must include the grower’s sugar production history for crop years 1997 through 2003. The facility with the grower’s history will be required to certify the history when requested by the grower, and

(4) Allocation transfers will be effective for the next fiscal year after the request is submitted to CCC, that is beginning October 1.

(c) If a sugar beet processing facility or a sugarcane processing facility located in a non-proportionate share State is closed, and the growers that delivered their crops to the closed facility elect to deliver their crops to another processor, the growers may petition the Executive Vice President, CCC, to transfer their share of the allocation from the processor that closed the facility to their new processor. If CCC approves transfer of the allocations, it will distribute the closed facility’s allocation based on the contribution of the growers’ production history to the closed facility’s allocation. CCC may grant the allocation transfer upon:

(1) Written request by a grower to transfer allocation,

(2) Written approval of the processor that will accept the additional deliveries,

(3) Evidence satisfactory to CCC that the new processor has the capacity to accommodate the production of petitioning growers, and

(4) Determinations by the CCC will be made within 60 days after the filing of the petition.

(d) Subject to a transfer of allocation, if any, described in paragraph (c) of this section being completed, CCC will consider a processor to be permanently terminated and eliminate the processor’s remaining allocation and distribute it to all other processors on a pro-rata basis when the processor:

(1) Has been dissolved,

(2) Has been liquidated in a bankruptcy proceeding,

(3) Has not processed sugarcane or sugar beets for 2 consecutive crop years,

(4) Has notified CCC that the processor has permanently terminated operations, or
