(ii) Financial information may be reported on Form RD 442–2 which includes Schedule 1, “Statement of Budget, Income and Equity” and Schedule 2, “Projected Cash Flow” or information in similar format.

(iii) A copy of the rate schedule in effect at the time of submission.

(g) Substitute for management reports. When RUS loans are secured by the general obligation of the public body or tax assessments which total 100 percent of the debt service requirements, the State program official may authorize an annual audit to substitute for other management reports if the audit is received within 150 days following the period covered by the audit.

§ 1780.48 Regional commission grants.

Grants are sometimes made by regional commissions for projects eligible for RUS assistance. RUS has agreed to administer such funds in a manner similar to administering RUS assistance.

(a) When RUS has funds in the project, no charge will be made for administering regional commission funds.

(b) When RUS has no loan or grant funds in the project, an administrative charge will be made pursuant to the Economy Act of 1932 (31 U.C.S. 1535). A fee of 5 percent of the first $100,000 of a regional commission grant and 1 percent of any amount over $100,000 will be paid to RUS by the commission.

(1) Appalachian Regional Commission (ARC). RUS Bulletin 1780–23 will be followed in determining the responsibilities of RUS. The ARC Federal Cochairman and the State program official will provide each other with the necessary notification and certification.

(2) Other regional commissions. Title V of the Public Works and Economic Development Act of 1965 (42 U.S.C. 3121 et seq.) authorizes other commissions similar to ARC. RUS Bulletin 1780–23 will be used to develop a separate project management agreement between RUS and the commission for each project. The agreement should be prepared by the State program official as soon as notification is received that a commission grant will be made and the amount is confirmed.

(c) Regional commission grants should be obligated as soon as possible in accordance with §1780.41, except that the announcement procedure referred to in RUS Staff Instruction 1780–2 is not applicable. Regional commission grants will be disbursed from the Finance Office in the same manner as RUS funds.

§ 1780.49 Rural or Native Alaskan villages.

(a) General. (1) This section contains regulations for providing grants to remedy the dire sanitation conditions in rural Alaskan villages using funds specifically made available for this purpose.

(2) Unless specifically modified by this section, grants will be made, processed, and serviced in accordance with this subpart.

(b) Definitions—(1) Dire sanitation condition. For the purpose of this section a dire sanitation condition exists where:

(i) Recurring instances of a waterborne communicable disease have been documented; or

(ii) No community-wide water and sewer system exists and individual residents must haul water to or human waste from their homes and/or use pit privies.

(2) Rural or Native Alaskan village. A rural or Native Alaskan community which meets the definition of a village under State statutes and does not have a population in excess of 10,000 inhabitants, according to the latest decennial Census of the United States.

(c) Eligibility. (1) The applicant must be a rural or Native Alaskan village.

(2) The median household income of the village cannot exceed 110 percent of the statewide nonmetropolitan household income.

(3) A dire sanitation condition must exist in the village.

(4) The applicant must obtain 25 percent of project development costs from State or local contributions. The local contribution can be from loan funds authorized under this part.

(d) Grant amount. Grants will be made for up to 75 percent of the project development costs.
Rural Utilities Service, USDA

§ 1780.57

(e) Use of funds. Grant funds can be used to pay reasonable costs associated with providing potable water or waste disposal services to residents of rural or Native Alaskan villages.

(f) Construction. (1) If the State of Alaska is contributing to the project costs, the project does not have to meet the construction requirements of this subpart.

(2) If a loan is made in accordance with this part for part of the local contribution, all of the requirements of this part apply.

§ 1780.56 [Reserved]

§ 1780.57 Design policies.

Facilities financed by the Agency will be designed and constructed in accordance with sound engineering practices, and must meet the requirements of Federal, State and local agencies.

(a) Environmental review. Facilities financed by the Agency must undergo an environmental impact analysis in accordance with the National Environmental Policy Act and RUS procedures. Facility planning and design must not only be responsive to the owner’s needs but must consider the environmental consequences of the proposed project. Facility design shall incorporate and integrate, where practicable, mitigation measures that avoid or minimize adverse environmental impacts. Environmental reviews serve as a means of assessing environmental impacts of project proposals, rather than justifying decisions already made. Applicants may not take any action on a project proposal that will have an adverse environmental impact or limit the choice of reasonable project alternatives being reviewed prior to the completion of the Agency’s environmental review.

(b) Architectural barriers. All facilities intended for or accessible to the public or in which physically handicapped persons may be employed must be developed in compliance with the Architectural Barriers Act of 1968 (42 U.S.C. 4151 et seq.) as implemented by 41 CFR 101–19.6, section 504 of the Rehabilitation Act of 1973 (42 U.S.C 1474 et seq.) as implemented by 7 CFR parts 15 and 15b, and Titles II and III of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.).

(c) Energy/environment. Facility design should consider cost effective energy-efficient and environmentally-sound products and services.
