Coop. State Research, Education, and Extension Ser., USDA § 3430.21

the Federal assistance programs. If applications are not received by applicable deadlines, they will not be considered for funding. Exceptions will be considered only when extenuating circumstances exist, as determined by CSREES, and justification and supporting documentation are provided to CSREES.

(b) \section*{What to submit.} The contents of the applicable application package, as well as any other information, are to be submitted by the due date.

(c) \section*{Where to submit.} The RFA will provide addresses for submission of letters of intent, if requested or required, and applications. It also will indicate permissible methods of submission (i.e., electronic, e-mail, hand-delivery, U.S. Postal Service, courier). Conformance with preparation and submission instructions is required and will be strictly enforced unless a deviation had been approved. CSREES may establish additional requirements. CSREES may return without review applications that are not consistent with the RFA instructions.

§ 3430.19 \section*{Resubmission of an application.}

(a) \section*{Previously unfunded applications.} (1) Applications that are resubmitted to a program, after being previously submitted but not funded by that program, must include the following information:

(i) The CSREES-assigned proposal number of the previously submitted application.

(ii) Summary of the previous reviewers’ comments.

(iii) Explanation of how the previous reviewers’ comments or previous panel summary have been addressed in the current application.

(2) Resubmitting an application that has been revised based on previous reviewers’ critiques does not guarantee the application will be recommended for funding.

(b) \section*{Previously funded applications.} (1) CSREES competitive programs are generally not designed to support multiple Federal assistance awards activities that are essentially repetitive in nature. PDs who have had their projects funded previously are discouraged from resubmitting relatively identical applications for further funding. Applications that are sequential continuations or new stages of previously funded projects must compete with first-time applications, and should thoroughly demonstrate how the proposed project expands substantially on previously funded efforts and promotes innovation and creativity beyond the scope of the previously funded project.

(2) An application may be submitted only once to CSREES. The submission of duplicative or substantially similar applications concurrently for review by more than one program will result in the exclusion of the redundant applications from CSREES consideration.

§ 3430.20 \section*{Acknowledgment of an application.}

The receipt of all letters of intent and applications will be acknowledged by CSREES. Applicants who do not receive an acknowledgement within a certain number of days (as established in the RFA, e.g., 15 and 30 days) of the submission deadline should contact the program contact. Once the application has been assigned a proposal number by CSREES, that number should be cited on all future correspondence.

§ 3430.21 \section*{Confidentiality of applications and awards.}

(a) \section*{General.} Names of submitting institutions and individuals, as well as application contents and evaluations, will be kept confidential, except to those involved in the review process, to the extent permissible by law.

(b) \section*{Identifying confidential and proprietary information in an application.} If an application contains proprietary information that constitutes a trade secret, proprietary commercial or financial information, confidential personal information, or data affecting the national security, it will be treated in confidence to the extent permitted by law, provided that the information is clearly marked by the proposer with the term “confidential and proprietary information” and that the following statement is included at the bottom of the project narrative or any other attachment included in the application that contains such information: “The
