¹ Infant formula and dry infant cereal must be iron-fortified.
² Breastmilk or formula, or portions of both, may be served; however, it is recommended that breastmilk be served in place of formula from birth through 11 months.
³ For some breastfed infants who regularly consume less than the minimum amount of breastmilk per feeding, a serving of less than the minimum amount of breastmilk may be offered, with additional breastmilk offered if the infant is still hungry.
⁴ A serving of this component is required only when the infant is developmentally ready to accept it.

§ 210.11 Competitive food services.

(a) Definitions. For the purpose of this section:

(1) Competitive foods means any foods sold in competition with the Program to children in food service areas during the lunch periods.

(2) Food of minimal nutritional value means: (i) In the case of artificially sweetened foods, a food which provides less than five percent of the Reference Daily Intakes (RDI) for each of eight specified nutrients per serving; and (ii) in the case of all other foods, a food which provides less than five percent of the RDI for each of eight specified nutrients per serving. The eight nutrients to be assessed for this purpose are—protein, vitamin A, vitamin C, niacin, riboflavin, thiamine, calcium, and iron. All categories of food of minimal nutritional value and petitioning requirements for changing the categories are listed in appendix B of this part.

(b) General. School food authorities may impose additional restrictions on the sale of all foods sold at any time throughout schools participating in the Program.

§ 210.12 Student, parent and community involvement.

(a) General. School food authorities shall promote activities to involve students and parents in the Program. Such activities may include menu planning, enhancement of the eating environment, Program promotion, and related student-community support activities. School food authorities are encouraged to use the school food service program to teach students about good nutrition practices and to involve the school faculty and the general community in activities to enhance the Program.
§ 210.13 Facilities management.

(a) Health standards. The school food authority shall ensure that food storage, preparation and service is in accordance with the sanitation and health standards established under State and local law and regulations.

(b) Food safety inspections. Schools shall obtain a minimum of two food safety inspections during each school year conducted by a State or local governmental agency responsible for food safety inspections. They shall post in a publicly visible location a report of the most recent inspection conducted, and provide a copy of the inspection report to a member of the public upon request. Sites participating in more than one child nutrition program shall only be required to obtain two food safety inspections per school year if the nutrition programs offered use the same facilities for the production and service of meals.

(c) Food safety program. The school food authority must develop a written food safety program for each of its food preparation and service facilities that meets the requirements in paragraph (c)(1) or paragraph (c)(2) of this section.

1. A school food authority with a food safety program based on traditional hazard analysis and critical control point (HACCP) principles must:
   (i) Perform a hazard analysis;
   (ii) Decide on critical control points;
   (iii) Determine the critical limits;
   (iv) Establish procedures to monitor critical control points;
   (v) Establish corrective actions;
   (vi) Establish verification procedures; and
   (vii) Establish a recordkeeping system.

2. A school food authority with a food safety program based on the process approach to HACCP must ensure that its program includes:
   (i) Standard operating procedures to provide a food safety foundation;
   (ii) Menu items grouped according to process categories;
   (iii) Critical control points and critical limits;
   (iv) Monitoring procedures;
   (v) Corrective action procedures;
   (vi) Recordkeeping procedures; and
   (vii) Periodic program review and revision.

(d) Storage. The school food authority shall ensure that the necessary facilities for storage, preparation and service of food are maintained. Facilities for the handling, storage, and distribution of purchased and donated foods shall be such as to properly safeguard against theft, spoilage and other loss.

§ 210.14 Resource management.

(a) Nonprofit school food service. School food authorities shall maintain a nonprofit school food service. Revenues received by the nonprofit school food service are to be used only for the operation or improvement of such food service, except that, such revenues shall not be used to purchase land or buildings, unless otherwise approved by FNS, or to construct buildings. Expenditures of nonprofit school food service revenues shall be in accordance with the financial management system established by the State agency under §210.19(a) of this part. School food authorities may use facilities, equipment, and personnel supported with nonprofit school food revenues to support a nonprofit nutrition program for the elderly, including a program funded under the Older Americans Act of 1965 (42 U.S.C. 3001 et seq.).

(b) Net cash resources. The school food authority shall limit its net cash resources to an amount that does not exceed 3 months average expenditures for its nonprofit school food service or such other amount as may be approved by the State agency in accordance with §210.19(a).
