Examples of such articles include *Bergera (=Murraya) koenigii* leaves, as well as *Murraya paniculata* flowers or foliage.

A person operating under a compliance agreement may issue a limited permit for the interstate movement of regulated nursery stock to areas of the United States other than American Samoa, Northern Mariana Islands, and those portions of Arizona, California, and South Carolina not quarantined due to the presence of Asian citrus psyllid or citrus greening, if:

1. The nursery stock is treated for ACP with an APHIS-approved soil drench or in-ground granular application no more than 30 days and no fewer than 20 days before shipment, followed by an APHIS-approved foliar spray no more than 10 days before shipment. All treatments must be applied according to their EPA label, including directions on application, restrictions on place of application and other restrictions, and precautions, and including statements pertaining to Worker Protection Standards.

2. The nursery stock is inspected by an inspector in accordance with § 301.76–9 and found free of Asian citrus psyllid.

3. The nursery stock is affixed prior to movement with a plastic or metal tag on which the statement "Limited permit: USDA-APHIS-PPQ. Not for distribution in American Samoa, Northern Mariana Islands, or those portions of AZ, CA and SC not quarantined due to the presence of Asian citrus psyllid or citrus greening" is prominently and legibly displayed. If the nursery stock is destined for movement or sale in boxes or containers, the statement may be printed on the box or container, or printed on a label permanently affixed to the box or container, provided that, in either case, the statement is prominently and legibly displayed.

4. The nursery stock is moved in a container sealed with an agricultural seal placed by an inspector.

5. This container prominently and legibly displays the statement of paragraph (b)(3) of this section.

6. A copy of the limited permit is attached to the consignee’s copy of the accompanying waybill.

7. The nursery stock is moved in accordance with the conditions specified on the limited permit to the location specified on the permit.

(c) Additional conditions for issuance of a limited permit; regulated articles intended for consumption, as apparel or as a similar personal accessory, or for other decorative use.

In addition to the general conditions for issuance of a limited permit contained in §301.76-5(b), an inspector or person operating under a compliance agreement may issue a limited permit for the interstate movement of regulated articles intended for consumption, as apparel or as a similar personal accessory, or for other decorative use if:

1. The articles are treated with irradiation in accordance with 7 CFR part 305 of this chapter at an irradiation facility that is not located in an area quarantined for citrus greening.

2. The container that will be used to move the articles interstate is clearly labeled with the limited permit, which must contain the name of the State or portion of a State where the articles were produced and a statement that the articles were treated in accordance with 7 CFR part 305 of this chapter.

3. A copy of the limited permit is attached to the consignee’s copy of the accompanying waybill.

§ 301.76–7 Additional conditions for issuance of certificates and limited permits for regulated articles moved interstate from areas quarantined for citrus greening.

(a) Additional conditions for issuance of a limited permit; regulated nursery stock grown, produced, or maintained at a nursery or other facility located in the quarantined area.

In addition to the general conditions for issuance of a limited permit contained in §301.76-5(b), an inspector or person operating under a compliance agreement may issue a limited permit for the interstate movement for immediate export of regulated nursery stock grown, produced, or maintained at a nursery or other facility located in the quarantined area if:

1. The nursery stock is treated for Asian citrus psyllid with an APHIS-approved soil drench or in-ground granular application, followed by an APHIS-approved foliar spray, in accordance with 7 CFR part 305 of this chapter.
§ 301.76-8 Compliance agreements and cancellation.

(a) Any person involved in the growing, maintaining, processing, handling, packing, treating, or moving of regulated articles from areas quarantined for citrus greening or Asian citrus psyllid may enter into a compliance agreement when an inspector determines that the person understands this subpart, agrees to comply with its provisions, and agrees to comply with all the provisions contained in the compliance agreement. The person must also agree to maintain and offer for inspection such records as are necessary to demonstrate continual adherence to the requirements of the regulations and the provisions of the compliance agreement.4/ 

(b) Any compliance agreement may be canceled, either orally or in writing, by an inspector whenever the inspector finds that the person who has entered into the compliance agreement has failed to comply with this subpart. If the cancellation is oral, the cancellation and the reasons for the cancellation will be confirmed in writing as promptly as circumstances allow. Any person whose compliance agreement has been canceled may appeal the decision, in writing, within 10 days after receiving written notification of the cancellation. The appeal must state all of the facts and reasons upon which the person relies to show that the compliance agreement was wrongly canceled. As promptly as circumstances allow, the Administrator will grant or deny the appeal, in writing, stating the reasons for the decision. A hearing will be held to resolve any conflict as to any material fact. Rules of practice concerning a hearing will be adopted by the Administrator.
