(5) Maintain and improve water quality and quantity, aquatic and wildlife habitat, recreational opportunities, and aesthetics on private grazing land; 
(6) Harvest, process, and market private grazing land resources; and 
(7) Identify opportunities to diversify private grazing land enterprises.

(b) Refer to 7 CFR 610.4 on other items relating to technical assistance.

(c) To receive technical assistance, a landowner or manager may contact NRCS or the local conservation district to seek assistance to solve identified natural resource problems or opportunities. Participation in this program is voluntary.

PART 611—SOIL SURVEYS

Subpart A—General

Sec.
611.1 Purpose and scope.
611.2 Cooperative relationships.

Subpart B—Soil Survey Operations

611.10 Standards, guidelines, and plans.
611.11 Soil survey information.

Subpart C—Cartographic Operations

611.20 Function.
611.21 Availability of aerial photography.
611.22 Availability of satellite imagery.

SOURCE: 69 FR 60283, Oct. 8, 2004, unless otherwise noted.

Subpart A—General

§ 611.11

(a) NRCS conducts soil surveys under national standards and guidelines for naming, classifying, and interpreting soils and for disseminating soil survey information.

(b) A soil survey Memorandum of Understanding (MOU) is prepared prior to the start of each soil survey project, or a work plan is prepared for soil survey maintenance activities. These documents provide specific details and technical specifications to support the interpretative and data needs of the area to be surveyed. The MOU is signed by representatives of NRCS, land grant universities, and in some States representatives of other State agencies. Federal land administering agencies also sign the MOU if federal lands are included in the survey.

§ 611.11 Soil survey information.

(a) Availability. NRCS disseminates soil survey information to the public by any of the means described in paragraph (d) of this section. NRCS makes soil survey information available as soon as is practicable following field work or other soil survey activity that provides new soil survey information.

(b) Content. Soil survey information conforms with standards and meets the
