Subpart A—General

§ 634.1 Purpose and scope.

(a) The purpose of this part is for the U.S. Department of Agriculture (USDA), with the concurrence of the U.S. Environmental Protection Agency (EPA), to set forth regulations to carry out a Rural Clean Water Program (RCWP) under section 35, Pub. L. 95-217; 91 Stat. 1579; 33 U.S.C. 1288.

(b) The Rural Clean Water Program provides financial and technical assistance to private landowners and operators (participants) having control of rural land. The assistance is provided through long-term contracts (5 to 10 years) to install best management practices (BMP's) in project areas which have critical water quality problems resulting from agricultural activities. The proposed project area must be within a high priority area in an approved agricultural portion of a 208 water quality management plan. Participation in RCWP is voluntary.

(c) The program is a new USDA program and an extension of existing water-quality management programs of EPA.

§ 634.2 Objective.

The RCWP is designed to reduce agricultural nonpoint source pollutants to improve water quality in rural areas to meet water quality standards or water quality goals. The objective is to be achieved in the most cost-effective manner possible in keeping with the provision of adequate supplies of food and fiber and a quality environment.

§ 634.3 Administration.

At the national level, the Secretary of Agriculture, with the concurrence of the Administrator, EPA, administers RCWP. The Secretary of Agriculture has delegated responsibility for administration of the program (43 FR 8252) to the Administrator, Natural Resources Conservation Service (NRCS). NRCS will be assisted by other USDA agencies in accordance with existing authorities.
