§ 760.505 Application.

(a) To apply for TAP, a producer that suffered eligible tree, bush, or vine losses that occurred:

(1) During calendar years 2008, 2009, or 2010, prior to May 7, 2010, must provide an application for payment and supporting documentation to FSA no later than July 6, 2010.

(2) On or after May 7, 2010, must provide an application for payment and supporting documentation to FSA within 90 calendar days of the disaster event or date when the loss of trees, bushes, or vines is apparent to the producer.

(b) The producer must submit the application for payment within the time specified in paragraph (a) of this section to the FSA administrative county office that maintains the producer’s farm records for the agricultural operation.

(c) A complete application includes all of the following:

(1) A completed application form provided by FSA;

(2) An acreage report for the farming operation as specified in part 718, subpart B, of this chapter;

(3) Subject to verification and a loss amount determined appropriate by the county committee, a written estimate of the number of trees, bushes, or vines lost or damaged that is certified by the producer or a qualified expert, including the number of acres on which the loss occurred; and

(4) Sufficient evidence of the loss to allow the county committee to calculate whether an eligible loss occurred.

(d) Before requests for payment will be approved, the county committee:

(1) Must make an eligibility determination based on a complete application for assistance;

(2) Must verify actual qualifying losses and the number of acres involved by on-site visual inspection of the land and the trees, bushes, or vines;

(3) May request additional information and may consider all relevant information in making its determination; and

(4) Must verify actual costs to complete the practices, as documented by the producer.

§ 760.506 Payment calculations.

(a) Payment to an eligible orchardist or nursery tree grower for the cost of replanting or rehabilitating trees, bushes, or vines damaged or lost due to a natural disaster, in excess of 15 percent damage or mortality (adjusted for normal damage or mortality), will be calculated as follows:

(1) For the cost of planting seedlings or cuttings, to replace lost trees, bushes, or vines, the lesser of:

(i) 70 percent of the actual cost of the practice, or

(ii) The amount calculated using rates established by the Deputy Administrator for the practice.

(2) For the cost of pruning, removal, and other costs incurred for salvaging damaged trees, bushes, or vines, or in the case of mortality, to prepare the land to replant trees, bushes, or vines, the lesser of:

(i) 50 percent of the actual cost of the practice, or

(ii) The amount calculated using rates established by the Deputy Administrator for the practice.

(b) An orchardist or nursery tree grower that did not plant the trees, bushes, or vines, but has a production history for commercial purposes on planted or existing trees and lost the trees, bushes, or vines as a result of a natural disaster, in excess of 15 percent damage or mortality (adjusted for normal damage or mortality), will be eligible for the salvage, pruning, and land preparation payment calculation as specified in paragraph (a)(2) of this section. To be eligible for the replanting payment calculation as specified in paragraph (a)(1) of this section, the orchardist or nursery grower who did not plant the stock must be a new owner who meets all of the requirements of §760.504(b) or be considered the owner of the trees under provisions appearing elsewhere in this subpart.
Farm Service Agency, USDA § 760.507

(c) Eligible costs for payment calculation include costs for:

(1) Seedlings or cuttings, for tree, bush, or vine replanting;

(2) Site preparation and debris handling within normal horticultural practices for the type of stand being re-established, and necessary to ensure successful plant survival;

(3) Pruning, removal, and other costs incurred to salvage damaged trees, bushes, or vines, or, in the case of tree mortality, to prepare the land to replant trees, bushes, or vines;

(4) Chemicals and nutrients necessary for successful establishment;

(5) Labor to plant seedlings or cuttings as determined reasonable by the county committee; and

(6) Labor used to transplant existing seedlings established through natural regeneration into a productive tree stand.

(d) The following costs are not eligible:

(1) Costs for fencing, irrigation, irrigation equipment, protection of seedlings from wildlife, general improvements, re-establishing structures, and windbreaks.

(2) Any other costs not listed in paragraphs (c)(1) through (c)(6) of this section, unless specifically determined eligible by the Deputy Administrator.

(e) Producers must provide the county committee documentation of actual costs to complete the practices, such as receipts for labor costs, equipment rental, and purchases of seedlings or cuttings.

(f) When lost stands are replanted, the types planted may be different from those originally planted. The alternative types will be eligible for payment if the new types have the same general end use, as determined and approved by the county committee. Payments for alternative types will be based on the lesser of rates established to plant the types actually lost or the cost to establish the alternative used. If the type of plantings, seedlings, or cuttings differs significantly from the types lost, the costs may not be approved for payment.

(g) When lost stands are replanted, the types planted may be planted on the same farm in a different location than the lost stand. To be eligible for payment, site preparation costs for the new location must not exceed the cost to re-establish the original stand in the original location.

(h) Eligible orchardists or nursery tree growers may elect not to replant the entire eligible stand. If so, the county committee will calculate payment based on the number of qualifying trees, bushes, or vines actually replanted.

(i) If a practice, such as site preparation, is needed to both replant and rehabilitate trees, bushes, or vines, the producer must document the expenses attributable to replanting versus rehabilitation. The county committee will determine whether the documentation of expenses detailing the amounts attributable to replanting versus rehabilitation is acceptable. In the event that the county committee determines the documentation does not include acceptable detail of cost allocation, the county committee will pro-rate payment based on physical inspection of the loss, damage, replanting, and rehabilitation.

(j) The cumulative total quantity of acres planted to trees, bushes, or vines for which a producer may receive payment under this part for losses that occurred between January 1, 2008, and September 30, 2011, will not exceed 500 acres.

§ 760.507 Affirmative action.

(a) Eligible orchardists and nursery tree growers must execute all required documents and complete the TAP-funded practice within 12 months of application approval.

(b) Eligible orchardist or nursery tree growers must allow representatives of FSA to visit the site for the purposes of certifying compliance with TAP requirements.

(c) Producers who do not meet all applicable requirements and obligations will not be eligible for payment.
