§ 929.102 Procedure to determine quantity of screened cranberries in unscreened lots.

The determination pursuant to §929.54 of the quantity of screened cranberries contained in an unscreened lot shall be made in accordance with the following procedure and on the basis of a sample of representative boxes comprising no less than 2 percent of the cranberries in the lot:

(a) The cranberries in the sample are cleaned to remove chaff, and the boxes of cleaned berries are weighed. The weight of the boxes themselves is then deducted to determine the weight of the cleaned berries. The weight of the cleaned berries is divided by the number of boxes in the sample to obtain the net weight of cleaned cranberries per box. The net weight is multiplied by the number of boxes in the lot to obtain the net weight of the berries in the unscreened lot.
§ 929.103 Inspection procedure.

(a) Inspection of withheld cranberries shall be limited to any plant, storage facility, or other location, within the production area where facilities suitable to the inspection service are available for sampling, weighing, and inspection of cranberries.

(b) The handler offering any lot of cranberries for inspection shall furnish the necessary labor and pay the costs of moving, weighing, and otherwise making available the sample the inspector chooses for inspection. The size of the sample shall be determined by the inspector. In the case of inspection of a lot of unscreened cranberries, the sample shall be screened by the handler under the supervision of the inspector and the inspection certificate shall show the quantity of cranberries in such lot which meets the requirements established for withheld cranberries pursuant to § 929.54(c).

[28 FR 11611, Oct. 31, 1963]

§ 929.104 Outlets for excess cranberries.

(a) In accordance with § 929.61, excess cranberries may be disposed of only in the following noncommercial or non-competitive outlets, but only if the requirements in paragraph (b) of this section are complied with:

(1) Foreign countries, except Canada.

(2) Charitable institutions.

(3) Any nonhuman food use.

(4) Research and development projects approved by the committee dealing with the development of foreign and domestic markets, including, but not limited to dehydration, radiation, freeze drying, or freezing of cranberries.

(b) Excess cranberries may not be converted into canned, frozen, or dehydrated cranberries or other cranberry products by any commercial process.

Handlers may divert excess cranberries in the outlets listed in paragraph (a) of this section only if they meet the diversion requirements specified in § 929.61(c).

[65 FR 42614, July 11, 2000, as amended at 66 FR 34351, June 27, 2001]

§ 929.105 Reporting.

(a) Each report required to be filed with the committee pursuant to §§ 929.6 and 929.48 shall be mailed to the committee office or delivered to that office. If the report is mailed, it shall be deemed filed when postmarked.

(b) Certified reports shall be filed with the committee, on a form provided by the committee, by each handler not later than January 20, May 20, and August 20 of each fiscal period and by September 20 of the succeeding fiscal period showing:

(1) The total quantity of cranberries the handler acquired and the total quantity of cranberries and Vaccinium oxycoccus cranberries the handler handled from the beginning of the reporting period indicated through December 31, April 30, July 31, and August 31, respectively, and

(2) The respective quantities of cranberries and Vaccinium oxycoccus cranberries and cranberry products and Vaccinium oxycoccus cranberry products held by the handler on January 1, May
