§ 929.102 Procedure to determine quantity of screened cranberries in unscreened lots.

The determination pursuant to §929.54 of the quantity of screened cranberries contained in an unscreened lot shall be made in accordance with the following procedure and on the basis of a sample of representative boxes comprising no less than 2 percent of the cranberries in the lot:

(a) The cranberries in the sample are cleaned to remove chaff, and the boxes of cleaned berries are weighed. The weight of the boxes themselves is then deducted to determine the weight of the cleaned berries. The weight of the cleaned berries is divided by the number of boxes in the sample to obtain the net weight of the berries in the unscreened lot.

§ 929.75 Personal liability.

No member or alternate member of the committee and no employee or agent of the committee shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate, employee, or agent, except for acts of dishonesty, willful misconduct, or gross negligence.
