§ 1170.7 Reporting requirements.

(a) All dairy product manufacturers, with the exception of those who are exempt as described in §1170.9, shall submit a report to National Agricultural Statistics Service (NASS) by noon on Wednesday of all products sold as specified in §1170.8 during the seven days ending with the previous Saturday. If a Federal holiday falls on a Tuesday or Wednesday, NASS will contact manufacturers via e-mail or phone concerning the applicable report deadline. The report is to be submitted on the appropriate forms supplied by NASS and shall indicate the name, address, plant location(s), quantities sold, total sales dollars or dollars per pound for the applicable products, and the moisture content where applicable. Each sale shall be reported for the time period when the transaction is completed, i.e. the product is "shipped out" and title transfer occurs. Each sale shall be reported either f.o.b. plant if the product is "shipped out" from the plant or f.o.b. storage facility location if the product is "shipped out" from a storage facility. In calculating the total dollars received or dollars per pound, the reporting entity shall neither add transportation charges incurred at the time the product is "shipped out" or after the product is "shipped out" nor deduct transportation charges incurred before the product is "shipped out." In calculating the total dollars received or dollars per pound, the reporting entity shall not deduct brokerage fees or clearing charges paid by the manufacturer.

(b) Manufacturers or other persons storing dairy products are required to report, on a monthly basis, stocks of dairy products (as defined in §1170.4) on hand, on the appropriate forms supplied by the NASS. The report shall indicate the name, address, and stocks on hand at the end of the month for each storage location.
