§ 54.6 Amount of indemnity payments.

(a) Indemnity paid for sheep in accordance with §54.3 will be set based on the following price reports published by the Agricultural Marketing Service (AMS). If pricing information is unavailable from these markets during a given week or month or if the numbers of animals sold are too low to give an accurate market value, the preceding week or month’s value will be used. The AMS reports from the most recent week or month prior to the date APHIS offers to pay an owner indemnity shall be used to calculate the indemnity for that owner’s sheep:

2. The weekly weighted average Utility slaughter ewe price per pound at San Angelo, TX;
3. The monthly weighted average commercial western ewe lamb replacement price per head;
4. The monthly weighted average commercial western yearling ewe replacement price per head;
5. The monthly weighted average commercial western running age ewe price per head.
6. The monthly weighted average commercial western aged ewe price per head.
