Defense Nuclear Fac. Safety Board
§ 1706.6

rationale for use of the personnel, shall be published in the Federal Register.

(d) Work for others. During the term of any Board contract, the contractor may not enter into consulting or other contractual arrangements with other persons or entities, the result of which could give rise to an OCI with respect to the work being performed under the contract. The prime contractor shall ensure that all of its employees, subcontractors, and consultants under the contract abide by this paragraph. If the contractor has reason to believe that any proposed arrangement with other persons or entities may involve an actual or potential OCI, it shall promptly inform the Board in writing of all pertinent facts regarding such proposed arrangement. In the case of task order contracts, this paragraph applies, subject to §1706.7(c), only to specific ongoing tasks that the contracting officer authorizes the contractor to perform.

(e) Contractor protection of Board information that is not publicly available. If the contractor in the performance of a Board contract obtains access to information, such as Board plans, policies, reports, studies, or financial plans, or internal data protected by the Privacy Act (5 U.S.C. 552a), proprietary information, or any other data which has not been released to the public, the contractor shall not:

(1) Use such information for any private purpose until the information has been released or is otherwise made available to the public;

(2) Compete for work for the Board based on such information for a period of six months after either the contract has been completed or such information has been released or otherwise made available to the public, whichever occurs first, or submit an unsolicited proposal to the Government based on any other data which has not been released to the public, the contractor shall not:

(a) Advisory or assistance services. There shall be included in all formal Board solicitations for advisory or assistance services where the contract amount is expected to exceed $25,000 (or the then applicable small purchases threshold), a provision requiring a certificate representing whether award of the contract to the offeror would present actual or potential OCIs. Apparent successful offerors will be required to submit such certificates, but the Board may also require such a certificate to be submitted in other circumstances, such as:

(1) Where the contracting officer has identified certain offerors who have passed an initial screening and has determined that it is appropriate to request the identified offerors to file the certificate in order to expedite the award process; or

(2) In the case of modifications for additional effort under Board contracts, except those issued under the “changes” clause. If a certificate has been previously submitted with regard to the contract being modified, only an updating of such statement shall be required for a contract modification.

In addition, if determined appropriate by the contracting officer for the Board, such certificates may be required in connection with any other contracts subject to this part or in which this part has been incorporated by reference.

(b) Marketing consultant services. There shall further be included in all Board solicitations, except sealed bids, where the contract amount is expected to exceed $200,000, a provision requiring an organizational conflicts of interest certificate from any marketing consultants engaged by an offeror in support of the preparation or submission of an offer for a Board contract by that offeror.
