the Anchorage International ATCT; excluding that airspace east of the 350° bearing from the Anchorage International ATCT and north of the 090° bearing from the Anchorage International ATCT and east of a line bearing 180° and 360° from the intersection of the new Seward Highway and International Airport Road and the airspace extending upward from the surface to but not including 600 feet MSL, south of lat. 61°08′28″ N.

(b) Merrill segment. That area from the surface to and including 2,500 feet MSL, within a line beginning at Point MacKenzie; hence direct to the mouth of Ship Creek; hence direct to the intersection of the Glenn Highway and Muldoon Road; hence south along Muldoon Road to Tudor Road; hence west along Tudor Road to the new Seward Highway; hence direct to West Anchorage High School; hence direct to Point MacKenzie; hence via the north bank of Knik Arm to the point of beginning.

(c) Lake Hood segment. That area from the surface to and including 2,500 feet MSL, within a line beginning at Point MacKenzie; hence direct to the intersection of Tudor Road and the new Seward Highway; hence south along the new Seward Highway to the 090° bearing from the Anchorage International ATCT; hence west direct to the Anchorage International ATCT; hence north along the 350° bearing from the Anchorage International ATCT to the north bank of Knik Arm; hence via the north bank of Knik Arm to the point of beginning.

(d) Elmendorf segment. That area from the surface to and including 3,000 feet MSL, within a line beginning at Point MacKenzie; hence via the north bank of Knik Arm to the intersection of the 4.7-mile radius of Elmendorf AFB; hence clockwise along the 4.7-mile radius of Elmendorf AFB to long. 149°46′44″ W.; hence south along long. 149°46′44″ W. to lat. 61°19′10″ N.; hence to lat. 61°17′58″ N., long. 149°44′08″ W.; hence to lat. 61°17′30″ N., long. 149°43′08″ W.; hence south along long. 149°43′08″ W. to the Glenn Highway; hence south and west along the Glenn Highway to Muldoon Road; hence direct to the mouth of Ship Creek; hence direct to the point of beginning.

(e) Bryant segment. That area from the surface to and including 2,000 feet MSL, within a line beginning at lat. 61°17′13″ N., long. 149°37′35″ W.; hence west along lat. 61°17′13″ N., to long. 149°43′08″ W.; hence south along long. 149°43′08″ W. to the Glenn Highway; hence north and east along the Glenn Highway to Ski Bowl Road; hence southeast along the Ski Bowl Road to a point one-half mile south of the Glenn Highway; hence north and east one-half mile south of and parallel to the Glenn Highway to its intersection with a line one-half mile east of and parallel to the Bryant Airport Runway 16/34 extended centerline; hence northeast along a line one-half mile east of and parallel to Bryant Airport runway 16/34 extended centerline to the point of beginning.

(f) Seward Highway segment. That area from the surface to and including 4,100 feet MSL, within a line beginning at the intersection of a line bearing 180° from the intersection of the new Seward Highway and International Airport Road, and O’Malley Road; hence east along O’Malley Road to its intersection with Lake Otis Park Way, lat. 61°07′23″ N., long 149°50′03″ W.; hence northwesterly along Lake Otis Park Way to its intersection with Abbott Road, lat. 61°08′14″ N., long. 149°50′03″ W.; hence east along Abbott Road to its intersection with Abbott Loop Road, lat. 61°08′14″ N., long. 149°48′16″ W.; hence due north to intersect with Tudor Road, lat. 61°10′51″ N., long. 149°48′16″ W.; hence west along Tudor Road to its intersection with the new Seward Highway; lat. 61°10′51″ N., long. 149°51′38″ W.; hence south along the new Seward Highway to its intersection with a line bearing 180° and 360° from the intersection of the new Seward Highway and International Airport Road; hence south to the point of beginning.

[Doc. No. 29029, 64 FR 14976, Mar. 29, 1999; Amdt. 93–77, 64 FR 17439, Apr. 9, 1999]

§ 93.57 General rules: All segments.

(a) Each person operating an aircraft to, from, or on an airport within the Anchorage, Alaska, Terminal Area shall operate that aircraft according to
§ 93.59 General rules: International segment.

(a) No person may operate an aircraft at an altitude between 1,200 feet MSL and 2,000 feet MSL in that portion of this segment lying north of the midchannel of Knik Arm.

(b) Each person operating an airplane within the Anchorage, Alaska Terminal Area shall conform to the flow of traffic depicted on the appropriate aeronautical charts.

(c) Each person operating a helicopter shall operate it in a manner so as to avoid the flow of airplanes.

(d) Except as provided in §93.65 (d) and (e), and §93.67(b), each person operating an aircraft in the Anchorage, Alaska, Terminal Area shall operate that aircraft only within the designated segment containing the arrival or departure airport.

(e) Except as provided in §§93.63(d) and 93.67(b), each person operating an aircraft in the Anchorage, Alaska, Terminal Area shall maintain two-way radio communications with the ATCT serving the segment containing the arrival or departure airport.

§ 93.61 General rules: Lake Hood segment.

(a) No person may operate an aircraft at an altitude between 1,200 feet MSL and 2,000 feet MSL in that portion of this segment lying north of the midchannel of Knik Arm.

(b) Each person operating an airplane within this segment (except that part described in paragraph (a) of this section) shall operate that airplane at an altitude of at least 600 feet MSL until maneuvering for a safe landing requires further descent.

§ 93.63 General rules: Merrill segment.

(a) No person may operate an aircraft at an altitude between 600 feet MSL and 2,000 feet MSL in that portion of this segment lying north of the midchannel of Knik Arm.

(b) Each person operating an airplane at a speed of more than 105 knots within this segment (except for that part described in paragraph (a) of this section) shall operate that airplane at an altitude of at least 1,200 feet MSL until maneuvering for a safe landing requires further descent.

(c) Each person operating an airplane at a speed of 105 knots or less within this segment (except for that part described in paragraph (a) of this section) shall operate that airplane at an altitude of at least 900 feet MSL until maneuvering for a safe landing requires further descent.

(d) Whenever the Merrill ATCT is not operating, each person operating an aircraft either in that portion of the Merrill segment north of midchannel of Knik Arm, or in the Seward Highway segment at or below 1,200 feet MSL, shall contact Anchorage Approach Control for wake turbulence and other advisories. Aircraft operating within the remainder of the segment should self-announce intentions on the Merrill Field CTAF.

§ 93.65 General rules: Elmendorf segment.

(a) Each person operating a turbine-powered aircraft within this segment shall operate that airplane at an altitude of at least 1,700 feet MSL until maneuvering for a safe landing requires further descent.

(b) Each person operating an airplane at a speed of more than 105 knots within this segment (other than turbine-powered aircraft) shall operate that airplane at an altitude of at least 1,200 feet MSL until maneuvering for a safe landing requires further descent.
