business combination, and the financial statements have not been filed previously by the registrant.

(5) An issuer that omits from its initial registration statement financial statements of a recently consummated business combination pursuant to paragraph (c)(4) of this section shall furnish those financial statements and any pro forma information specified by §210.8–05 under cover of Form 8–K (§249.308 of this chapter) no later than 75 days after consummation of the acquisition.

(d) If the smaller reporting company made a significant business acquisition after the latest fiscal year end and filed a report on Form 8–K, which included audited financial statements of such acquired business for the periods required by paragraph (c) of this section and the pro forma financial information required by §210.8–05, the determination of significance may be made by using pro forma amounts for the latest fiscal year in the report on Form 8–K rather than by using the historical amounts of the registrant. The tests may not be made by “annualizing” data.

(e) If the business acquired or to be acquired is a foreign business, financial statements of the business meeting the requirements of Item 17 of Form 20–F (§249.220f of this chapter) will satisfy this section.

(a) Audited income statements (not including earnings per unit) for the two most recent years, which shall exclude items not comparable to the proposed future operations of the property such as mortgage interest, leasehold rental, depreciation, corporate expenses and federal and state income taxes; Provided, however, that such audited statements need be presented for only the most recent fiscal year if:

1. The property is not acquired from a related party;
2. Material factors considered by the smaller reporting company in assessing the property are described with specificity in the registration statement with regard to the property, including source of revenue (including, but not limited to, competition in the rental market, comparative rents, occupancy rates) and expenses (including but not limited to, utilities, ad valorem tax rates, maintenance expenses, and capital improvements anticipated); and
3. The smaller reporting company indicates that, after reasonable inquiry, it is not aware of any material factors relating to the specific property other than those discussed in response to paragraph (a)(2) of this section that would cause the reported financial information not to be necessarily indicative of future operating results.
§ 210.8–07 Limited partnerships.

(a) Smaller reporting companies that are limited partnerships must provide the balance sheets of the general partners as described in paragraphs (b) through (d) of this section.

(b) Where a general partner is a corporation, the audited balance sheet of the corporation as of the end of its most recently completed fiscal year must be filed. Receivables, other than trade receivables, from affiliates of the general partner should be deducted from shareholders' equity of the general partner. Where an affiliate has committed itself to increase or maintain the general partner's capital, the audited balance sheet of such affiliate must also be presented.

(c) Where a general partner is a partnership, there shall be filed an audited balance sheet of such partnership as of the end of its most recently completed fiscal year.

(d) Where the general partner is a natural person, there shall be filed, as supplemental information, a balance sheet of such natural person as of a recent date. Such balance sheet need not be audited. The assets and liabilities should be carried at estimated fair market value, with provisions for estimated income taxes on unrealized gains. The net worth of such general partner(s), based on such balance sheet(s), singly or in the aggregate, shall be disclosed in the registration statement.

§ 210.8–08 Age of financial statements.

At the date of filing, financial statements included in filings other than filings on Form 10–K must be not less current than the financial statements that would be required in Forms 10–K and 10–Q if such reports were required to be filed. If required financial statements are as of a date 135 days or more before the date a registration statement becomes effective or proxy material is expected to be mailed, the financial statements shall be updated to include financial statements for an interim period ending within 135 days of the effective or expected mailing date. Interim financial statements must be prepared and presented in accordance with paragraph (b) of this section.

(a) When the anticipated effective or mailing date falls within 45 days after the end of the fiscal year, the filing may include financial statements only as current as of the end of the third fiscal quarter; provided, however, that if the audited financial statements for the recently completed fiscal year are available or become available before effectiveness or mailing, they must be included in the filing:

(b) If the effective date or anticipated mailing date falls after 45 days but within 90 days of the end of the smaller reporting company’s fiscal year, the smaller reporting company is not required to provide the audited financial statements for such year end provided that the following conditions are met:
