be used for construction of the replacement facility.

If these guidelines cannot be met, the company should consult with the Commission’s staff to determine if the exemption afforded by §2.55 may be used. If the exemption may not be used, construction authorization must be obtained pursuant to another regulation under the Natural Gas Act.

(Order 663, 64 FR 26603, May 14, 1999)

APPENDIX B TO PART 2 [RESERVED]
