Drug Enforcement Administration, Justice

§ 1308.13 Schedule III.

(a) Schedule III shall consist of the drugs and other substances, by whatever official name, common or usual name, chemical name, or brand name designated, listed in this section. Each drug or substance has been assigned the DEA Controlled Substances Code Number set forth opposite it.

(b) Stimulants. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation which contains any quantity of the following substances having a stimulant effect on the central nervous system, including its salts, isomers, and salts of isomers whenever the existence of such salts, isomers, and salts of isomers is possible within the specific chemical designation:

(1) Methamphetamine .................................................. 2550
(2) Benzphetamine ....................................................... 1228
(3) Phenmetrazine ......................................................... 1645
(4) Phendimetrazine ...................................................... 1647
(5) Phentermine ........................................................... 1651

(c) Depressants. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation which contains any quantity of the following substances having a depressant effect on the central nervous system:

(1) Amobarbital ......................................................... 2126
(2) Secobarbital ......................................................... 2316
(3) Pentobarbital ......................................................... 2271
(4) Phencyclidine ....................................................... 7471
(5) Methaqualone ........................................................ 7468

§ 1308.13 Schedule III.

(m) In Schedule III, the following specific chemicals are listed:

(1) Lisdexamfetamine, its salts, isomers, and salts of its isomers ........................................ 7300

(e) Depressants. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation which contains any quantity of the following substances having a depressant effect on the central nervous system, including its salts, isomers, and salts of isomers whenever the existence of such salts, isomers, and salts of isomers is possible within the specific chemical designation:

(1) Amobarbital ......................................................... 2125
(2) Glutethimide .......................................................... 2550
(3) Pentobarbital ......................................................... 2270
(4) Phencyclidine ....................................................... 7471
(5) Secobarbital ........................................................... 2315

(f) Hallucinogenic substances.

(1) Nabilone ................................................................. 7379

Another name for nabilone: (±)-trans-3-(1,1-dimethyl-4,6,8,10-tetrahydro-6,6,7,8,10-hexahydro-6H-pyran-9-one] 8333

(2) Immediate precursors to phencyclidine (PCP):

(i) 1-phenylcyclohexylamine .......................................... 7460
(ii) 1-piperidinoocyclohexanecarboxylate (PCC) ............... 8603

(3) Immediate precursor to fentanyl:

(i) 4-anilino-N-phenethyl-4-piperidine (ANPP) .................. 8333

(ii) [Reserved]

(39 FR 22342, June 20, 1974)

§ 1308.14

21 CFR Ch. II (4–1–12 Edition)

(1) Anabolic steroids (see §1300.01 of this chapter)—4000

(2) [Reserved]

(g) Hallucinogenic substances. (1) Dronabinol (synthetic) in sesame oil and encapsulated in a soft gelatin capsule in a U.S. Food and Drug Administration approved product—7369.

[Some other names for dronabinol: (6αR-trans)-6α,7α,8a-tetrahydro-6,8,9-trimethyl-5-pentyl-4H-dibenz(α,e)pyran-1-ol, or (−)-delta-9-(trans)-tetrahydrocannabinol]

(2) [Reserved]

[39 FR 22142, June 20, 1974]

EDITORIAL NOTE: For Federal Register citations affecting §1308.15, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and at www.fdsys.gov.

§ 1308.14 Schedule IV.

(a) Schedule IV shall consist of the drugs and other substances, by whatever official name, common or usual name, chemical name, or brand name designated, listed in this section. Each drug or substance has been assigned an official name, common or usual name, chemical name, or brand name as the specific chemical designation:

(f) Anabolic Steroids. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation containing any quantity of the following substances, including its salts, esters and others:

Some trade or other names for a tiletamine-zolazepam combination product:

Telazol...

Some trade or other names for tiletamine:

2-(ethylnmio)-2-(2-thienyl)cyclohexanone...

Some trade or other names for zolazepam:

4-[2-fluorophenyl]-6,8-dihydro-1,3,8-trimethylpyrazolo(3,4-e)-[1,4]diazepin-7(1H)-one, flupymrazapam...

(d) Nalorphine 9400.

(e) Narcotic drugs. Unless specifically excepted or unless listed in another schedule:

(1) Any material, compound, mixture, or preparation containing any of the following narcotic drugs, or their salts calculated as the free anhydrous base or alkaloid, in limited quantities as set forth below:

(ii) Not more than 1.8 grams of codeine per 100 milliliters or not more than 90 milligrams per dosage unit, with one or more active, nonnarcotic ingredients in recognized therapeutic amounts ......................................................... 9803

(ii) Not more than 300 milligrams of dihydromorphidone (hydrocodeine) per 100 milliliters or not more than 15 milligrams per dosage unit, with a fourfold or greater quantity of an isoquinoline alkaloid of opium ............................................................................ 9805

(iv) Not more than 300 milligrams of dihydromorphidone (hydrocodeine) per 100 milliliters or not more than 15 milligrams per dosage unit, with one or more active nonnarcotic ingredients in recognized therapeutic amounts .......................................................... 9806

(v) Not more than 1.8 grams of dihydromorphidone per 100 milliliters or not more than 90 milligrams per dosage unit, with one or more active nonnarcotic ingredients in recognized therapeutic amounts .......................................................... 9807

(vi) Not more than 300 milligrams of ethylmorphine per 100 milliliters or not more than 15 milligrams per dosage unit, with one or more active, nonnarcotic ingredients in recognized therapeutic amounts .......................................................... 9808

(vii) Not more than 500 milligrams of opium per 100 milliliters or per 100 grams or not more than 25 milligrams per dosage unit, with one or more active, nonnarcotic ingredients in recognized therapeutic amounts .......................................................... 9809

(viii) Not more than 50 milligrams of morphine per 100 milliliters or per 100 grams, with one or more active, nonnarcotic ingredients in recognized therapeutic amounts .......................................................... 9810

(2) Any material, compound, mixture, or preparation containing any of the following narcotic drugs or their salts, as set forth below:

(i) Buprenorphine ........................................................................ 9064

(ii) [Reserved]
