August redistribution process, August 1 to September 30.

(7) For design-build projects, the execution or modification of the project agreement for final design and physical construction, and authorization to proceed, shall not occur until after the completion of the NEPA process. However, preliminary design (as defined in 23 CFR 636.103) and preliminary engineering may be authorized in accordance with this section.

(b) Federal funds shall not participate in costs incurred prior to the date of a project agreement except as provided by 23 CFR 1.9(b).

(c) The execution of the project agreement shall be deemed a contractual obligation of the Federal government under 23 U.S.C. 106 and shall require that appropriate funds be available at the time of authorization for the agreed Federal share, either pro rata or lump sum, of the cost of eligible work to be incurred by the State except as follows:

(2) Projects for preliminary studies for the portion of the preliminary engineering and right-of-way (ROW) phase(s) through the selection of a location.

(3) Projects for ROW acquisition in hardship and protective buying situations through the selection of a particular location. This includes ROW acquisition within a potential highway corridor under consideration where necessary to preserve the corridor for future highway purposes. Authorization of work under this paragraph shall be in accord with the provisions of 23 CFR part 710.

(d) For projects authorized to proceed under paragraphs (c)(1) through (c)(4) of this section, the executed project agreement shall contain the following statement: “Authorization to proceed is not a commitment or obligation to provide Federal funds for that portion of the undertaking not fully funded herein.”

(e) For projects authorized under paragraphs (c)(2) and (c)(3) of this section, subsequent authorizations beyond the location stage shall not be given until appropriate available funds have been obligated to cover eligible costs of the work covered by the previous authorization.

(f)(1) The Federal-aid share of eligible project costs shall be established at the time the project agreement is executed in one of the following manners:

(i) Pro rata, with the agreement stating the Federal share as a specified percentage; or

(ii) Lump sum, with the agreement stating that Federal funds are limited to a specified dollar amount not to exceed the legal pro rata.

(2) The pro-rata or lump sum share may be adjusted before or shortly after contract award to reflect any substantive change in the bids received as compared to the STD’s estimated cost of the project at the time of FHWA authorization, provided that Federal funds are available.

(3) Federal participation is limited to the agreed Federal share of eligible costs actually incurred by the State, not to exceed the maximum permitted by enabling legislation.

(g) The State may contribute more than the normal non-Federal share of title 23, U.S.C. projects. In general, financing proposals that result in only minimal amounts of Federal funds in projects should be avoided unless they are based on sound project management decisions.

(h)(1) Donations of cash, land, material or services may be credited to the State’s non-Federal share of the participating project work in accordance with title 23, U.S.C., and implementing regulations.

(2) Contributions may not exceed the total costs incurred by the State on the project. Cash contributions from all sources plus the Federal funds may not exceed the total cost of the project.

§ 630.108 Preparation of agreement.

(a) The STD shall prepare a project agreement for each Federal-aid project.

(b) The STD may develop the project agreement in a format acceptable to
both the STD and the FHWA provided the following are included:

(1) A description of each project location including State and project termini;
(2) The Federal-aid project number;
(3) The work covered by the agreement;
(4) The total project cost and amount of Federal funds under agreement;
(5) The Federal-aid share of eligible project costs expressed as either a pro rata percentage or a lump sum as set forth in §630.106(f)(1);
(6) A statement that the State accepts and will comply with the agreement provisions set forth in §630.112;
(7) A statement that the State stipulates that its signature on the project agreement constitutes the making of the certifications set for in §630.112; and
(8) Signatures of officials from both the State and the FHWA, and the date executed.

(c) The project agreement should also document, by comment, instances where:

(1) The State is applying amounts of credits from special accounts (such as the 23 U.S.C. 120(j) toll credits, 23 U.S.C. 144(n) off-system bridge credits and 23 U.S.C. 323 land value credits) to cover all or a portion of the normal percent non-Federal share of the project;
(2) The project involves other arrangements affecting Federal funding or non-Federal matching provisions, including tapered match, donations, or use of other Federal agency funds, if known at the time the project agreement is executed; and
(3) The State is claiming finance related costs for bond and other debt instrument financing (such as payments to States under 23 U.S.C. 122).

(d) The STD may use an electronic version of the agreement as provided by the FHWA.

§ 630.112 Agreement provisions.
(a) The State, through its transportation department, accepts and agrees to comply with the applicable terms and conditions set forth in title 23, U.S.C., the regulations issued pursuant thereto, the policies and procedures promulgated by the FHWA relative to the designated project covered by the agreement, and all other applicable Federal laws and regulations.

(b) Federal funds obligated for the project must not exceed the amount agreed to on the project agreement, the balance of the estimated total cost being an obligation of the State. Such obligation of Federal funds extends only to project costs incurred by the State after the execution of a formal project agreement with the FHWA.

(c) The State must stipulate that as a condition to payment of the Federal funds obligated, it accepts and will comply with the following applicable provisions:

(1) Project for acquisition of rights-of-way. In the event that actual construction of a road on this right-of-way is not undertaken by the close of the
