§ 990.260  (1) Improve the operational efficiency and effectiveness of managing public housing assets;
(2) Better preserve and protect each asset;
(3) Provide appropriate mechanisms for monitoring performance at the property level; and
(4) Facilitate future investment and reinvestment in public housing by public and private sector entities.

(b) HUD recognizes that appropriate changes in its regulatory and monitoring programs may be needed to support PHAs to undertake the goals identified in paragraph (a) of this section.

§ 990.265  Identification of projects.

For purposes of this subpart, project means a public housing building or set of buildings grouped for the purpose of management. A project may be as identified under the ACC or may be a reasonable grouping of projects or portions of a project under the ACC. HUD shall retain the right to disapprove of a PHA’s designation of a project. PHAs may group up to 250 scattered-site dwelling rental units into a single project.

§ 990.270  Asset management.

As owners, PHAs have asset management responsibilities that are above and beyond property management activities. These responsibilities include decision-making on topics such as long-term capital planning and allocation, the setting of ceiling or flat rents, review of financial information and physical stock, property management performance, long-term viability of properties, property repositioning and replacement strategies, risk management responsibilities pertaining to regulatory compliance, and those decisions otherwise consistent with the PHA’s ACC responsibilities, as appropriate.

§ 990.275  Project-based management (PBM).

PBM is the provision of property-based management services that is tailored to the unique needs of each property, given the resources available to that property. These property management services include, but are not limited to, marketing, leasing, resident services, routine and preventive maintenance, lease enforcement, protective services, and other tasks associated with the day-to-day operation of rental housing at the project level. Under PBM, these property management services are arranged, coordinated, or overseen by management personnel who have been assigned responsibility for the day-to-day operation of that property and who are charged with direct oversight of operations of that property. Property management services may be arranged or provided centrally; however, in those cases in which property management services are arranged or provided centrally, the arrangement or provision of these services must be done in the best interests of the property, considering such factors as cost and responsiveness.

§ 990.280  Project-based budgeting and accounting.

(a) All PHAs covered by this subpart shall develop and maintain a system of budgeting and accounting for each project in a manner that allows for analysis of the actual revenues and expenses associated with each property. Project-based budgeting and accounting will be applied to all programs and revenue sources that support projects under an ACC (e.g., the Operating Fund, the Capital Fund, etc.).

(b)(1) Financial information to be budgeted and accounted for at a project level shall include all data needed to complete project-based financial statements in accordance with Accounting Principles Generally Accepted in the
United States of America (GAAP), including revenues, expenses, assets, liabilities, and equity data. The PHA shall also maintain all records to support those financial transactions. At the time of conversion to project-based accounting, a PHA shall apportion its assets, liabilities, and equity to its respective projects and HUD-accepted central office cost centers.

(2) Provided that the PHA complies with GAAP and other associated laws and regulations pertaining to financial management (e.g., OMB Circulars), it shall have the maximum amount of responsibility and flexibility in implementing project-based accounting.

(3) Project-specific operating income shall include, but is not limited to, such items as project-specific operating subsidy, dwelling and non-dwelling rental income, excess utilities income, and other PHA or HUD-identified income that is project-specific for management purposes.

(4) Project-specific operating expenses shall include, but are not limited to, direct administrative costs, utilities costs, maintenance costs, tenant services, protective services, general expenses, non-routine or capital expenses, and other PHA or HUD-identified costs which are project-specific for management purposes.

(5) If the project has excess cash flow available after meeting all reasonable operating needs of the property, the PHA may use this excess cash flow for the following purposes:

(i) Fungibility between projects as provided for in §990.205.

(ii) Charging each project a reasonable asset management fee that may also be used to fund operations of the central office. However, this asset management fee may be charged only if the PHA performs all asset management activities described in this subpart (including project-based management, budgeting, and accounting). Asset management fees are considered a direct expense.

(iii) Other eligible purposes.

(c) In addition to project-specific records, PHAs may establish central office cost centers to account for non-project specific costs (e.g., human resources, Executive Director’s office, etc.). These costs shall be funded from the property-management fees received from each property, and from the asset management fees to the extent these are available.

(d) In the case where a PHA chooses to centralize functions that directly support a project (e.g., central maintenance), it must charge each project using a fee-for-service approach. Each project shall be charged for the actual services received and only to the extent that such amounts are reasonable.

§ 990.285 Records and reports.

(a) Each PHA shall maintain project-based budgets and fiscal year-end financial statements prepared in accordance with GAAP and shall make these budgets and financial statements available for review upon request by interested members of the public.

(b) Each PHA shall distribute the project-based budgets and year-end financial statements to the Chairman and to each member of the PHA Board of Commissioners, and to such other state and local public officials as HUD may specify.

(c) Some or all of the project-based budgets and financial statements and information shall be required to be submitted to HUD in a manner and time prescribed by HUD.

§ 990.290 Compliance with asset management requirements.

(a) A PHA is considered in compliance with asset management requirements if it can demonstrate substantially, as described in paragraph (b) of this section, that it is managing according to this subpart.
