plan must be based on the public meeting records and existing survey documents, reports, and other research from Federal agencies, tribal community colleges, and land grant universities. When completed, the plan must:

(1) Determine available agricultural resources;
(2) Identify specific tribal agricultural resource goals and objectives;
(3) Establish management objectives for the resources;
(4) Define critical values of the tribe and its members and provide identified resource management objectives; and
(5) Identify actions to be taken to reach established objectives.

(c) Where the provisions in this subpart are inconsistent with the Navajo Nation’s agricultural resource management plan, the Secretary may waive the provisions under part 1 of this title, so long as the waiver does not violate a federal statute or judicial decision or conflict with the Secretary’s trust responsibility under federal law.

§ 161.204 How are carrying capacities and stocking rates established?

(a) BIA, with the concurrence of the Navajo Nation, will prescribe, review and adjust the carrying capacity of each range unit by determining the number of livestock, and/or wildlife, that can be grazed on the Navajo Partitioned Lands without inducing damage to vegetation or related resources on
