(b) Relieves us from any future costs incurred for maintaining the structure; 
(c) Describes what is granted by us and accepted by you; and 
(d) Provides that if you do not regularly use a structure for a period of time that we have determined, or you do not properly maintain and rehabilitate the structure, we will notify you in writing that: 
   (1) You must either remove it or correct any unsafe condition; 
   (2) If you do not comply with our notice, we may remove the structure and you must reimburse us our costs; and 
   (3) We may modify, close, or remove your structure without notice due to an urgency we have identified.

§ 171.410 Can I install a fence on a BIA irrigation project? 
Yes. Fences are considered structures and may be installed in compliance with §171.405.

§ 171.415 Can I place an obstruction on a BIA irrigation project? 
No. You may not place obstructions on BIA irrigation projects. 
(a) If you do so, we will notify you in writing that you must remove it. 
(b) If you do not remove your obstruction in compliance with our notice, we will remove it and we will bill you for our costs. 
(c) We can remove your obstruction without notice because of an urgency we have identified.

§ 171.420 Can I dispose of sewage, trash, or other refuse on a BIA irrigation project? 
No. Sewage, trash, or other refuse are considered obstructions and must be removed in accordance with §171.415.

Subpart E—Financial Matters: Assessments, Billing, and Collections

§ 171.500 How does BIA determine the annual operation and maintenance assessment rate for the irrigation facility servicing my farm unit? 
(a) We calculate the annual operation and maintenance assessment rate by estimating the following annual costs and then dividing by the total assessable acres for your irrigation facility:
   (1) Personnel salary and benefits for the facility engineer/manager and employees under their management or control; 
   (2) Materials and supplies; 
   (3) Vehicle and equipment repairs; 
   (4) Equipment costs, including lease fees; 
   (5) Depreciation; 
   (6) Acquisition costs; 
   (7) Maintenance of a reserve fund available for contingencies or emergency costs needed for the reliable operation of the irrigation facility infrastructure; 
   (8) Maintenance of a vehicle and heavy equipment replacement fund; 
   (9) Systematic rehabilitation and replacement of project facilities; 
   (10) Contingencies for unknown costs and omitted budget items; and 
   (11) Other costs we determine necessary to properly perform the activities and functions characteristic of an irrigation facility.
(b) Annual operation and maintenance assessment rates may be lowered through the exercise of our discretion when items listed in (a) of this section are adjusted pursuant to our authority under 25 U.S.C. 385, 386a and 389.
(c) If you subdivide your farm unit, you may be subject to a higher annual operation and maintenance assessment rate, which we publish annually in the Federal Register.
(d) At projects where supplemental water is available, the calculation of your annual operation and maintenance assessment rate may take into consideration the total estimated annual amount to be collected for supplemental water deliveries.

§ 171.505 How does BIA calculate my annual operation and maintenance assessment? 
(a) We calculate your annual operation and maintenance assessment by multiplying the total assessable acres of your land within the service area of our irrigation facility by the annual operation and maintenance assessment rate we establish for that facility. 
(b) We will not assess lands that have been re-classified as either permanently non-assessable (PNA) or temporarily non-assessable (TNA) or lands
