§ 1.88-1 Nuclear decommissioning costs.

(a) In general. Section 88 provides that the amount of nuclear decommissioning costs directly or indirectly charged to the customers of a taxpayer that is engaged in the furnishing or sale of electric energy generated by a nuclear power plant must be included in the gross income of such taxpayer in the same manner as amounts charged for electric energy. For this purpose, decommissioning costs directly or indirectly charged to the customers of a taxpayer include all decommissioning costs that consumers are liable to pay by reason of electric energy furnished by the taxpayer during the taxable year, whether payable to the taxpayer, a trust, State government, or other entity, and even though the taxpayer may not control the investment or current expenditure of the amount and the amount may not be paid to the taxpayer at the time decommissioning costs are incurred. However, decommissioning costs payable to a taxpayer holding a qualified leasehold interest (as described in paragraph (b)(2)(i) of §1.468A–1) are included in the gross income of such taxpayer, and not in the gross income of the lessor.

(b) Examples. The following examples illustrate the application of the principles of paragraph (a) of this section:

Example 1. X corporation, an accrual method taxpayer engaged in the sale of electric energy generated by a nuclear power plant owned by X, is authorized by the public utility commission of State A to collect nuclear decommissioning costs from ratepayers residing in State A. With respect to the sale of electric energy, X includes in income amounts that have been billed to customers as well as estimated unbilled amounts that relate to energy provided by X after the previous billing but before the end of the taxable year ("accrued unbilled amounts"). The decommissioning costs are included in the monthly bills provided by X to its ratepayers and the entire amount billed is remitted directly to X. Under paragraph (a) of this section, the decommissioning costs must be included in the gross income of X in the same manner as amounts charged for electric energy (i.e., by including in income decommissioning costs that relate to amounts billed as well as decommissioning costs that relate to accrued unbilled amounts). The same rule would apply if the decommissioning costs charged to ratepayers were separately billed.

Example 2. Assume the same facts in example (1) except that X corporation is an accrual method taxpayer engaged in the sale of electric energy generated by a nuclear power plant owned by X, is authorized by the public utility commission of State A to collect electric decommissioning costs from ratepayers residing in State A. With respect to the sale of electric energy, X includes in income amounts that have been billed to customers as well as estimated unbilled amounts that relate to energy provided by X after the previous billing but before the end of the taxable year ("accrued unbilled amounts"). The decommissioning costs are included in the monthly bills provided by X to its ratepayers and the entire amount billed is remitted directly to X. Under paragraph (a) of this section, the decommissioning costs must be included in the gross income of X in the same manner as amounts charged for electric energy (i.e., by including in income decommissioning costs that relate to amounts billed as well as decommissioning costs that relate to accrued unbilled amounts). The same rule would apply if the decommissioning costs charged to ratepayers were separately billed.

Example 3. Assume the same facts in example (1) except that X corporation is an accrual method taxpayer engaged in the sale of electric energy generated by a nuclear power plant owned by X, is authorized by the public utility commission of State A to collect electric decommissioning costs from ratepayers residing in State A. With respect to the sale of electric energy, X includes in income amounts that have been billed to customers as well as estimated unbilled amounts that relate to energy provided by X after the previous billing but before the end of the taxable year ("accrued unbilled amounts"). The decommissioning costs are included in the monthly bills provided by X to its ratepayers and the entire amount billed is remitted directly to X. Under paragraph (a) of this section, the decommissioning costs must be included in the gross income of X in the same manner as amounts charged for electric energy (i.e., by including in income decommissioning costs that relate to amounts billed as well as decommissioning costs that relate to accrued unbilled amounts). The same rule would apply if the decommissioning costs charged to ratepayers were separately billed.
§ 1.101–1

Exclusion from gross income of proceeds of life insurance contracts payable by reason of death.

(a)(1) In general. Section 101(a)(1) states the general rule that the proceeds of life insurance policies, if paid by reason of the death of the insured, are excluded from the gross income of the recipient. Death benefit payments having the characteristics of life insurance proceeds payable by reason of death under contracts, such as workmen’s compensation insurance contracts, endowment contracts, or accident and health insurance contracts, are covered by this provision. For provisions relating to death benefits paid by or on behalf of employers, see section 101(b) and §1.101–2. The exclusion from gross income allowed by section 101(a) applies whether payment is made to the estate of the insured or to any beneficiary (individual, corporation, or partnership) and whether it is made directly or in trust. The extent to which this exclusion applies in cases where life insurance policies have been transferred for a valuable consideration is stated in section 101(a)(2) and in paragraph (b) of this section. In cases where the proceeds of a life insurance policy, payable by reason of the death of the insured, are paid other than in a single sum at the time of such death, the amounts to be excluded from gross income may be affected by the provisions of section 101(c) (relating to amounts held under agreements to pay interest) or section 101(d) (relating to amounts payable at a date later than death). See §§1.101–3 and 1.101–4. However, neither section 101(c) nor section 101(d) applies to a single sum payment which does not exceed the amount payable at the time of death even though such amount is actually paid at a date later than death.

(2) Cross references. For rules governing the taxability of insurance proceeds constituting benefits payable on the death of an employee—

(i) Under pension, profit-sharing, or stock bonus plans described in section 401(a) and exempt from tax under section 501(a), or under annuity plans described in section 403(a), see section 72(m)(3) and paragraph (c) of §1.72–16;

(ii) Under annuity contracts to which §1.403(b)–3 applies, see §1.403(b)–7; or

(iii) Under eligible State deferred compensation plans described in section 457(b), see paragraph (c) of §1.457–1.

For the definition of a life insurance company, see section 801.
