(2) Any gender nonconforming appearance or manner or identification as lesbian, gay, bisexual, transgender, or intersex, and whether the resident may therefore be vulnerable to sexual abuse;
(3) Current charges and offense history;
(4) Age;
(5) Level of emotional and cognitive development;
(6) Physical size and stature;
(7) Mental illness or mental disabilities;
(8) Intellectual or developmental disabilities;
(9) Physical disabilities;
(10) The resident’s own perception of vulnerability; and
(11) Any other specific information about individual residents that may indicate heightened needs for supervision, additional safety precautions, or separation from certain other residents.

(d) This information shall be ascertained through conversations with the resident during the intake process and medical and mental health screenings; during classification assessments; and by reviewing court records, case files, facility behavioral records, and other relevant documentation from the resident’s files.

(e) The agency shall implement appropriate controls on the dissemination within the facility of responses to questions asked pursuant to this standard in order to ensure that sensitive information is not exploited to the resident’s detriment by staff or other residents.

§ 115.342 Placement of residents in housing, bed, program, education, and work assignments.

(a) The agency shall use all information obtained pursuant to §115.341 and subsequently to make housing, bed, program, education, and work assignments for residents with the goal of keeping all residents safe and free from sexual abuse.

(b) Residents may be isolated from others only as a last resort when less restrictive measures are inadequate to keep them and other residents safe, and then only until an alternative means of keeping all residents safe can be arranged. During any period of isolation, agencies shall not deny residents daily large-muscle exercise and any legally required educational programming or special education services. Residents in isolation shall receive daily visits from a medical or mental health care clinician. Residents shall also have access to other programs and work opportunities to the extent possible.

(c) Lesbian, gay, bisexual, transgender, or intersex residents shall not be placed in particular housing, bed, or other assignments solely on the basis of such identification or status, nor shall agencies consider lesbian, gay, bisexual, transgender, or intersex identification or status as an indicator of likelihood of being sexually abusive.

(d) In deciding whether to assign a transgender or intersex resident to a facility for male or female residents, and in making other housing and programming assignments, the agency shall consider on a case-by-case basis whether a placement would ensure the resident’s health and safety, and whether the placement would present management or security problems.

(e) Placement and programming assignments for each transgender or intersex resident shall be reassessed at least twice each year to review any threats to safety experienced by the resident.

(f) A transgender or intersex resident’s own views with respect to his or her own safety shall be given serious consideration.

(g) Transgender and intersex residents shall be given the opportunity to shower separately from other residents.

(h) If a resident is isolated pursuant to paragraph (b) of this section, the facility shall clearly document:

(1) The basis for the facility’s concern for the resident’s safety; and
(2) The reason why no alternative means of separation can be arranged.

(i) Every 30 days, the facility shall afford each resident described in paragraph (h) of this section a review to determine whether there is a continuing need for separation from the general population.
