local, or tribal environmental impact review requirements similar to the Federal NEPA procedures will be met concurrently, to the extent possible, through requesting the appropriate non-federal agency(ies) to be a joint lead agency(ies). This effort would involve joint analyses, public involvement and documentation. Grantees are responsible for identifying the application of and informing OJP of these state and local requirements.

(b) **Completed analysis.** For projects that had state or local environmental impact analysis completed prior to the implementation of these procedures, OJP will review the documents prepared to meet the state and local requirements. In order to minimize any duplication of analysis, OJP will advise the State on whether additional environmental impact review is required.

§ 91.68 Compliance with other Federal environmental statutes, regulations and executive orders.

(a) **Other Federal environmental laws.** All projects initiated by State or local units of government with VOI/TIS grant funding are also subject, where applicable, to the environmental impact analysis requirements of the following statutes, their implementing regulations, and the relevant executive orders:

1. Archeological and Historical Preservation Act.
2. Coastal Zone Management Act.
3. Coastal Barrier Resources Act.
6. Federal Water Pollution Control Act.
12. Flood Disaster Protection Act.
15. Executive Order on Environmental Justice, and

(b) **Combined requirements.** Documenting compliance with the environmental requirements in paragraph (a) of this section does not normally require separate documents or separate processes. Rather, documenting compliance with all of these requirements is generally accomplished by incorporating them into the NEPA documents. For example, one category of environmental impacts that must be addressed in a NEPA analysis is potential impacts to historic properties. The National Historic Preservation Act, as well as the Advisory Council on Historic Preservation’s regulations at 36 CFR part 800, also contain Federal requirements for addressing the impacts on historic properties from Federal actions. In order to avoid duplicate compliance procedures, the NEPA document traditionally becomes the process for meeting the requirements of both laws.
