and distributes it in any way he chooses to the crew members. Similarly, it will make no difference if the hiring, firing, and supervising of the crew members is left in the hands of the crew boss. (See Tobin v. LaDuke, 190 F. 2d 977 (C.A. 9); Tobin v. Anthony-Williams Mfg. Co., 196 F. 2d 547 (C.A. 8).)

§ 788.17 Employees employed in both exempt and nonexempt work.

The exemption for an employee employed in exempt work will be defeated in any workweek in which he performs a substantial amount of nonexempt work. For enforcement purposes nonexempt work will be considered substantial in amount if more than 20 percent of the time worked by the employee in a given workweek is devoted to such work. Where two types of work cannot be segregated, however, so as to permit separate measurement of the time spent in each, the employee will not be exempt.

§ 788.18 Preparing other forestry products.

As used in the exemption, other forestry products means plants of the forest and the natural properties or substances of such plants and trees. Included among these are decorative greens such as holly, ferns, roots, stems, leaves, Spanish moss, wild fruit, and brush. Christmas trees are only included where they are gathered in the wild from forests or from uncultivated land and not produced through the application of extensive agricultural or horticultural techniques. See 29 CFR 780.205 for further discussion. Gathering and preparing such forestry products as well as transporting them to the mill, processing plant, railroad, or other transportation terminal are among the described operations. Preparing such forestry products does not include operations that change the natural physical or chemical condition of the products or that amount to extracting (as distinguished from gathering) such as shelling nuts, or that mash berries to obtain juices.
