Mine Safety and Health Admin., Labor

aware that may be created by the performance of the contractor’s work at the mine.

PART 47—HAZARD COMMUNICATION (HazCom)

Subpart A—Purpose, Scope, Applicability, and Initial Miner Training

Sec.
47.1 Purpose of a HazCom standard; applicability.
47.2 Operators and chemicals covered; initial miner training.

Subpart B—Definitions

47.11 Definitions of terms used in this part.

Subpart C—Hazard Determination

47.21 Identifying hazardous chemicals.

Subpart D—HazCom Program

47.31 Requirement for a HazCom program.
47.32 HazCom program contents.

Subpart E—Container Labels and Other Forms of Warning

47.41 Requirement for container labels.
47.42 Label contents.
47.43 Label alternatives.
47.44 Temporary, portable containers.

Subpart F—Material Safety Data Sheets (MSDS)

47.51 Requirement for an MSDS.
47.52 MSDS contents.
47.53 Alternative for hazardous waste.
47.54 Availability of an MSDS.
47.55 Retaining an MSDS.

Subpart G [Reserved]

Subpart H—Making HazCom Information Available

47.71 Access to HazCom materials.
47.72 Cost for copies.
47.73 Providing labels and MSDSs to customers.

Subpart I—Trade Secret Hazardous Chemical

47.81 Provisions for withholding trade secrets.
47.82 Disclosure of information to MSHA.
47.83 Disclosure in a medical emergency.
47.84 Non-emergency disclosure.
47.85 Confidentiality agreement and remedies.

§ 47.2

Denial of a written request for disclosure.

§ 47.3

Review of denial.

Subpart J—Exemptions

47.91 Exemptions from the HazCom standard.
47.92 Exemptions from labeling.

SOURCE: 67 FR 42383, June 21, 2002, unless otherwise noted.

Subpart A—Purpose, Scope, Applicability, and Initial Miner Training

§ 47.1 Purpose of a HazCom standard; applicability.

The purpose of this part is to reduce injuries and illnesses by ensuring that each operator—
(a) Identifies the chemicals at the mine,
(b) Determines which chemicals are hazardous,
(c) Establishes a HazCom program,
(d) Informs each miner who can be exposed, and other on-site operators whose miners can be exposed, about chemical hazards and appropriate protective measures.
(e) As of September 23, 2002, all mines employing six or more miners are required to comply with this part.
(f) As of March 21, 2003, all mines employing five or fewer miners are required to comply with this part.

§ 47.2 Operators and chemicals covered; initial miner training.

(a) This part applies to any operator producing or using a hazardous chemical to which a miner can be exposed under normal conditions of use or in a foreseeable emergency. (Subpart J of this part lists exemptions from coverage.)
(b) Operators of mines which employ six or more miners must instruct each miner with information about the physical and health hazards of chemicals in the miner’s work area, the protective measures a miner can take against these hazards, and the contents of the mine’s HazCom program by September 23, 2002. Operators of mines that employ five or fewer miners must instruct each miner with information.
about the physical and health hazards of chemicals in the miner's work area, the protective measures a miner can take against these hazards, and the contents of the mine's HazCom program by March 21, 2003.

Subpart B—Definitions

§ 47.11  Definitions of terms used in this part.

The definitions in Table 47.11 apply in this part as follows:

<table>
<thead>
<tr>
<th>Term</th>
<th>Definition for purposes of HazCom</th>
</tr>
</thead>
<tbody>
<tr>
<td>Access</td>
<td>The right to examine and copy records.</td>
</tr>
<tr>
<td>Article</td>
<td>A manufactured item, other than a fluid or particle, that— (1) Is formed to a specific shape or design during manufacture, and (2) Has end-use functions dependent on its shape or design.</td>
</tr>
<tr>
<td>Chemical</td>
<td>(1) The scientific designation of a chemical in accordance with the nomenclature system of either the International Union of Pure and Applied Chemistry (IUPAC) or the Chemical Abstracts Service (CAS), or (2) A name that will clearly identify the chemical for the purpose of conducting a hazard evaluation.</td>
</tr>
<tr>
<td>Chemical name</td>
<td>Any element, chemical compound, or mixture of these.</td>
</tr>
<tr>
<td>Container</td>
<td>(1) Any bag, barrel, bottle, box, can, cylinder, drum, reaction vessel, storage tank, or the like. (i) Pipes or piping systems; (ii) Conveyors; and (iii) Engines, fuel tanks, or other operating systems or parts in a vehicle.</td>
</tr>
<tr>
<td>Cosmetics and drugs</td>
<td>(1) Cosmetics are any article applied to the human body for cleansing, beautifying, promoting attractiveness, or altering appearance. (2) Drugs are any article used to affect the structure or any function of the body of humans or other animals.</td>
</tr>
<tr>
<td>Designated representative</td>
<td>(1) Any individual or organization to whom a miner gives written authorization to exercise the miner's rights under this part, or (2) A representative of miners under part 40 of this chapter.</td>
</tr>
<tr>
<td>EPA</td>
<td>The U.S. Environmental Protection Agency.</td>
</tr>
<tr>
<td>Exposed</td>
<td>Subjected, or potentially subjected, to a physical or health hazard in the course of employment. &quot;Subjected,&quot; in terms of health hazards, includes any route of entry, such as through the lungs (inhalation), the stomach (ingestion), or the skin (skin absorption).</td>
</tr>
<tr>
<td>Foreseeable emergency</td>
<td>Any potential occurrence that could result in an uncontrolled release of a hazardous chemical into the mine.</td>
</tr>
<tr>
<td>Hazard warning</td>
<td>Any words, pictures, or symbols, appearing on a label or other form of warning, that convey the specific physical and health hazards of the chemical. (See the definitions for physical hazard and health hazard for examples of the hazards that the warning must convey.)</td>
</tr>
<tr>
<td>Hazardous chemical</td>
<td>Any chemical that can present a physical or health hazard.</td>
</tr>
<tr>
<td>Health hazard</td>
<td>A chemical for which there is statistically significant evidence that it can cause acute or chronic health effects in exposed persons. Health hazard includes chemicals which— (1) Cause cancer; (2) Damage the reproductive system or cause birth defects; (3) Are irritants, corrosives, or sensitizers; (4) Damage the liver; (5) Damage the kidneys; (6) Damage the nervous system; (7) Damage the blood or lymphatic systems; (8) Damage the stomach or intestines; (9) Damage the lungs, skin, eyes, or mucous membranes; or (10) Are toxic or highly toxic agents.</td>
</tr>
<tr>
<td>Health professional</td>
<td>A physician, physician's assistant, nurse, emergency medical technician, or other person qualified to provide medical or occupational health services.</td>
</tr>
<tr>
<td>Identity</td>
<td>A chemical's common name or chemical name.</td>
</tr>
<tr>
<td>Label</td>
<td>Any written, printed, or graphic material displayed on or affixed to a container to identify its contents and convey other relevant information.</td>
</tr>
<tr>
<td>Material safety data sheet (MSDS)</td>
<td>Written or printed material concerning a hazardous chemical which—</td>
</tr>
