(iii) Insufficient records shall subject the operator to fees based on raw tonnage data.
(c) If the operator combines surface mined coal, including reclaimed coal, with underground mined coal before the coal is weighed for fee purposes, the higher reclamation fee shall apply, unless the operator can substantiate the amount of coal produced by surface mining by acceptable engineering calculations or other reports which the Director may require.
(d) The reclamation fee shall be paid after the end of each calendar quarter beginning with the calendar quarter starting October 1, 1977.

(a) Fees for coal produced for sale, transfer, or use through September 30, 2007—(1) Surface mining fees. The fee for anthracite, bituminous, and subbituminous coal, including reclaimed coal, is 35 cents per ton unless the value of such coal is less than $3.50 per ton, in which case the fee is 10 percent of the value.
(2) Underground mining fees. The fee for anthracite, bituminous, and subbituminous coal is 15 cents per ton unless the value of such coal is less than $1.50 per ton, in which case the fee is 10 percent of the value.
(3) Surface and underground mining fees for lignite coal. The fee for lignite coal is 10 cents per ton unless the value of such coal is less than $5.00 per ton, in which case the fee charged is 2 percent of the value.
(4) In situ coal mining fees. The fee for in situ mined coal, except lignite coal, is 15 cents per ton based on Btu’s per ton in place equated to the gas produced at the site as certified through analysis by an independent laboratory. The fee for in situ mined lignite is 10 cents per ton based on the Btu’s per ton of coal in place equated to the gas produced at the site as certified through analysis by an independent laboratory.
(b) Fees for coal produced for sale, transfer, or use from October 1, 2007, through September 30, 2012. Fees for coal produced for sale, transfer, or use from October 1, 2007, through September 30, 2012, are shown in the following table:
