(v) From subsection (e)(4)(I) because to the extent that this provision is construed to require more detailed disclosure than the broad, generic information currently published in the system notice, an exemption from this provision is necessary to protect the confidentiality of sources of information and to protect privacy and physical safety of witnesses and informants. NGA will, nevertheless, continue to publish such a notice in broad generic terms, as is its current practice.

(vi) Consistent with the legislative purpose of the Privacy Act of 1974, NGA will grant access to nonexempt material in the records being maintained. Disclosure will be governed by NGA’s Privacy Regulation, but will be limited to the extent that the identity of confidential sources will not be compromised; subjects of an investigation of an actual or potential criminal or civil violation will not be alerted to the investigation; the physical safety of witnesses, informants, and law enforcement personnel will not be endangered; the privacy of third parties will not be violated; and that the disclosure would not otherwise impede effective law enforcement. Whenever possible, information of the above nature will be deleted from the requested documents and the balance made available. The controlling principle behind this limited access is to allow disclosures except those indicated in this paragraph. The decisions to release information from these systems will be made on a case-by-case basis.

PART 321—DEFENSE SECURITY SERVICE PRIVACY PROGRAM

Sec.
321.1 Purpose and applicability.
321.2 Definitions.
321.3 Information and procedures for requesting notification.
321.4 Requirements for identification.
321.5 Access by subject individuals.
321.6 Medical records.
321.7 Request for correction or amendment.
321.8 DSS review of request for amendment.
321.9 Appeal of initial amendment decision.
321.10 Disclosure to other than subject.
321.11 Fees.
321.12 Penalties.
321.13 Exemptions.
321.14 DSS implementation policies.

SOURCE: 64 FR 49660, Sept. 14, 1999, unless otherwise noted.

§ 321.1 Purpose and applicability.

(a) This part establishes rules, policies, and procedures for the disclosure of personal records in the custody of the Defense Security Service (DSS) to the individual subjects, the handling of requests for amendment or correction of such records, appeal and review of DSS decisions on these matters, and the application of general and specific exemptions, under the provisions of the Privacy Act of 1974. It also prescribes other policies and procedures to effect compliance with the Privacy Act of 1974 and DoD Directive 5400.11.

(b) The procedures set forth in this part do not apply to DSS personnel seeking access to records pertaining to themselves which previously have been available. DSS personnel will continue to be granted ready access to their personnel, security, and other records by making arrangements directly with the maintaining office. DSS personnel should contact the Office of Freedom of Information and Privacy, DSSHQ, for access to investigatory records pertaining to themselves or any assistance in obtaining access to other records pertaining to themselves, and may follow the procedures outlined in these rules in any case.

§ 321.2 Definitions.

(a) All terms used in this part which are defined in 5 U.S.C. 552a shall have the same meaning herein.

(b) As used in this part, the term agency means the Defense Security Service.

§ 321.3 Information and procedures for requesting notification.

(a) General. Any individual may request and receive notification of whether he is the subject of a record in any system of records maintained by DSS using the information and procedures described in this section.

1Copies may be obtained via internet at http://web7.whs.osd.mil/corres.htm.
§ 321.4 Requirements for identification.

(a) General. Only upon proper identification, made in accordance with the provisions of this section, will any individual be granted notification concerning and access to all releasable records pertaining to him which are maintained in a DSS system.
