§ 644.62 Title evidence.

(a) Acceptable Types of Title Evidence.

(1) Certificates of title are acceptable title evidence. Certificates of title must be in a form acceptable to the Attorney General. An acceptable form of certificate of title which has been approved by the Attorney General has been issued by the Chief of Engineers as ENG Form 903, Certificate of Title.

(i) In contracting for certificates of title, ENG Form 1016, Specifications for Furnishing and Delivering Certificates of Title Owner’s Title Guarantee (Insurance) Policies and Continuations Thereof, will be used.

(ii) Any title or abstract company approved by the Department of Justice and authorized and qualified to issue certificates of title in the State where the land is located will be acceptable to furnish certificates of title (Department of Justice “Standards for the Preparation of Title Evidence in Land Acquisitions by the United States, 1970.”) In those few jurisdictions where bar associations or other public or professional bodies hold that the issuance of certificates of title is the issuance of title opinions and therefore the practice of law and where title companies as corporations cannot engage in the practice of law, insured certificates of title may be procured from attorneys, acceptable to the Lands Division of the Department of Justice, acting as agents for title companies. The procedure for the selection of attorneys is set forth in §644.63(b).

(iii) Certificates of title will be based on a search of all records affecting the title to the land and be unqualified as any variance from the prescribed fees is considered a violation of the State law or regulation. Most State Insurance Commissions have recognized and approved the forms of certificates of title and title insurance policies prescribed by the Attorney General and have authorized their use in lieu of owners’ policies. Division and District Engineers should familiarize themselves with the State title insurance laws and regulations. If prices quoted by all possible sources seem exorbitant, the matter should be referred to HQDA (DAEN-REA-P) WASH DC 20314 for action.

§ 644.62 Title evidence.

(a) Acceptable Types of Title Evidence.

(1) Certificates of title are acceptable title evidence. Certificates of title must be in a form acceptable to the Attorney General. An acceptable form of certificate of title which has been approved by the Attorney General has been issued by the Chief of Engineers as ENG Form 903, Certificate of Title.

(i) In contracting for certificates of title, ENG Form 1016, Specifications for Furnishing and Delivering Certificates of Title Owner’s Title Guarantee (Insurance) Policies and Continuations Thereof, will be used.

(ii) Any title or abstract company approved by the Department of Justice and authorized and qualified to issue certificates of title in the State where the land is located will be acceptable to furnish certificates of title (Department of Justice “Standards for the Preparation of Title Evidence in Land Acquisitions by the United States, 1970.”) In those few jurisdictions where bar associations or other public or professional bodies hold that the issuance of certificates of title is the issuance of title opinions and therefore the practice of law and where title companies as corporations cannot engage in the practice of law, insured certificates of title may be procured from attorneys, acceptable to the Lands Division of the Department of Justice, acting as agents for title companies. The procedure for the selection of attorneys is set forth in §644.63(b).

(iii) Certificates of title will be based on a search of all records affecting the title to the land and be unqualified as any variance from the prescribed fees is considered a violation of the State law or regulation. Most State Insurance Commissions have recognized and approved the forms of certificates of title and title insurance policies prescribed by the Attorney General and have authorized their use in lieu of owners’ policies. Division and District Engineers should familiarize themselves with the State title insurance laws and regulations. If prices quoted by all possible sources seem exorbitant, the matter should be referred to HQDA (DAEN-REA-P) WASH DC 20314 for action.

§ 644.62 Title evidence.

(a) Acceptable Types of Title Evidence.

(1) Certificates of title are acceptable title evidence. Certificates of title must be in a form acceptable to the Attorney General. An acceptable form of certificate of title which has been approved by the Attorney General has been issued by the Chief of Engineers as ENG Form 903, Certificate of Title.

(i) In contracting for certificates of title, ENG Form 1016, Specifications for Furnishing and Delivering Certificates of Title Owner’s Title Guarantee (Insurance) Policies and Continuations Thereof, will be used.

(ii) Any title or abstract company approved by the Department of Justice and authorized and qualified to issue certificates of title in the State where the land is located will be acceptable to furnish certificates of title (Department of Justice “Standards for the Preparation of Title Evidence in Land Acquisitions by the United States, 1970.”) In those few jurisdictions where bar associations or other public or professional bodies hold that the issuance of certificates of title is the issuance of title opinions and therefore the practice of law and where title companies as corporations cannot engage in the practice of law, insured certificates of title may be procured from attorneys, acceptable to the Lands Division of the Department of Justice, acting as agents for title companies. The procedure for the selection of attorneys is set forth in §644.63(b).

(iii) Certificates of title will be based on a search of all records affecting the title to the land and be unqualified as
to the period of search. In the event that it is not practicable to obtain certificates of title, unqualified as to the period of search, all pertinent facts will be referred to the Department of Justice for consideration and approval.

(iv) Certificates of title or title insurance policies shall not limit the liability of the title company to a sum less than 50 percent of the reasonable value of the property. If property is acquired by donation or exchange, the value will be determined by the Corps of Engineers. However, as to acquisitions valued at more than $50,000, the liability of the title company may be limited to 50 percent of the first $50,000 and 25 percent of that portion of the value in excess of that amount. This limitation on the general rule has been approved by the Department of Justice. The appropriate ENG Forms for specifications for supplying title evidence may be amended, if that limited liability can be obtained. A certificate of title or title insurance policy by one title company for a single acquisition valued at more than 25 percent of the admitted assets (after deducting existing liabilities secured or unsecured and excluding any trust or escrow funds) of the issuing company is not acceptable.

(v) Generally, it is not necessary to obtain a final certificate of title when land is acquired by condemnation proceedings. However, it may be necessary that an intermediate certificate of title be obtained setting forth the limitation of liability of the title company. Division and District Engineers will be governed by the requirements of the local United States Attorney as to the necessity of obtaining an intermediate or final certificate of title.

(vi) Certificates of title, whether preliminary, intermediate, or final, will be procured in sufficient numbers to satisfy the needs of the District involved. Normally an original and two signed copies of each certificate of title will suffice.

(vii) The specifications may be supplemented to require the title company to have a local representative be available to perform preclosing interim title searches on request of the Contracting Officer.

(viii) The title company’s local representative must be authorized to pass on the sufficiency of the proposed deed to the United States; to give final approval of curative material furnished to satisfy title objections set forth in certificates of title; and to testify in court relative to the status of title, if called upon to do so.

(2) Title guarantee or title insurance policies are acceptable title evidence.

(i) Interim binders on owner’s title guarantee or title insurance policies supplemented by an owner’s title guarantee policy or title insurance policy in the forms approved by the Attorney General (ENG Form 1014), Interim Binder on Owner’s Title Guarantee (Insurance) Policy, and ENG Form 1015, Owner’s Title Guarantee (Insurance) Policy will be acceptable as evidence of title only in acquisition in those States where certificates of title may not be issued. ENG Form 3893-R is the form of endorsement for use with the title insurance policies when changes or corrections become necessary. No other substantial variation in the form of interim binder or the form of title guarantee or title insurance policy will be acceptable without prior approval of the Attorney General.

(ii) Companies contracting to issue such interim binders or preliminary reports and title guarantee or title insurance policies must have authority under the laws of the State of their incorporation and their charter to issue the same. They must also be financially sound and be willing and able to issue such binders and policies for all tracts for the amount of liability as set forth above.

(iii) In contracting for title guarantee or title insurance policies, ENG Form 1016, Specifications for Furnishing and Delivering Certificate of Title Owner’s Title Guarantee (Insurance) Policies and Continuations Thereof, will be used.

(iv) The interim binder or preliminary report must disclose the title holders of record and contain full information on all matters set forth in the binder as affecting the title. This data
must be in sufficient detail to enable an attorney examining the report to determine the nature and extent of such matters and their effect on the validity of the title of the land described therein. The contents of the report must meet the requirements of ENG Form 1016.

(v) The provisions of paragraphs (a)(1) (iv), (v), (vi), (vii) and (viii) of this section also apply to title guarantee or title insurance policies.

(3) Abstracts of title may be acceptable title evidence.

(i) Abstracts if title complying with the rules for abstracts in “Standards for the Preparation of Title Evidence in Land Acquisitions by the United States” issued by the Department of Justice, 1970, are acceptable title evidence if prepared by abstractors acceptable to the Attorney General. These may include abstractors employed by a department or agency of the Government. Corps of Engineers personnel generally will not prepare abstracts of title. However, where there is a comparatively small amount of abstract work to be performed, it may be desirable to have the abstracts prepared by qualified Government personnel. In such cases, the prior approval of the Chief of Engineers will be obtained. The request should justify the preparation of abstracts by Government personnel.

(ii) The form and contents of abstracts of title will meet the requirements in the “Standards for the Preparation of Title Evidence in Land Acquisitions by the United States” (Department of Justice, 1970) and ENG Form 1012, Specifications for Furnishing and Delivering Abstracts of Title.

(iii) The period of search of an abstract of title to be acceptable to the Attorney General will, wherever possible, begin with some undisputed source of title such as an original grant or patent from the sovereign. Where it is impossible or impracticable to begin with such grant or patent, refer to “Standards for the Preparation of Title Evidence in Land Acquisitions by the United States” (Department of Justice, 1970) and ENG Form 1012 for guidance.

(iv) In contracting for abstracts of title, ENG Form 1012 will be used. ENG Form 1012 provides for an unlimited period of search. For the purpose of conserving Government funds and in applicable easement acquisitions, Division and District Engineers are authorized to modify ENG Form 1012 to provide for the minimum period of search allowable under the regulations of the Department of Justice, when deemed to be to the best interest of the Government.

(4) Where the consideration to be paid by the Government is $1,000 or less, acquisition in fee may be based upon a title search by a staff attorney when it is deemed to be in the best interest of the Government. The Preliminary Certificate of Title, ENG Form 909, shall be based upon a search of the local land records beginning with a deed or other instrument transferring title recorded at least 40 years prior to the date of the preliminary certificate. The Final Certificate of Title on ENG Form 1013, shall be executed by a qualified Corps of Engineers’ attorney, preferably the same attorney who executed the preliminary certificate, and shall be based on a further search of the local land records from the date of the preliminary certificate to and including the date and time of recordation of the deed to the United States or to the date title passes in a condemnation proceeding. The attorney preparing such preliminary or final certificate of title shall also prepare an Abstract of Title evidencing the results of his search of the records. The Certificate of Title will set forth in detail all liens, encumbrances, outstanding interests and other estates adversely affecting the title.

(b) Easements. The standards and requirements as to title evidence for fee acquisition, set forth above, will be observed in the acquisition of all easements, except as follows:

(1) Preliminary certificates of title of approved title companies for easement acquisitions will be in the same form approved by the Attorney General for fee acquisitions and issued by the Chief of Engineers as ENG Form 903. Final certificates of title in easement acquisitions, however, must show title to the easement vested in the United States in the same land described in the certificate and the deed to the
United States. A form of final certificate of title for easements approved by the Attorney General and issued by the Chief of Engineers as ENG Form 1017, Final Certificate of Title for Easements, will be used in easement acquisitions.

(2) In contracting for certificates of title to easements, ENG Form 1016, Specifications for Furnishing and Delivering Certificates of Title, Owner's Title Guarantee (Insurance) Policies and Continuations Thereof, may be used provided the following paragraph is substituted in the detailed specifications: "Each certificate of title shall be executed in triplicate on legal size paper. Preliminary certificates of title shall be in the form attached hereto, ENG Form 903, and final certificates of title for easements, showing title vested in the United States, shall be in the form attached hereto, ENG Form 1017."

(3) In jurisdictions where it is not possible to obtain certificates of title commercially, title guarantee (insurance) policies may be obtained. In such cases, appropriate adjustment in forms and specifications will be made, comparable to those prescribed for certificates of title to easements above.

(4) For easements costing more than $100 but not in excess of $5,000, the requirements of the Attorney General have been waived. In such cases, it is acceptable to use certificates of title prepared and executed by a qualified Corps of Engineers' attorney. The Preliminary Certificate of Title, ENG Form 903, and final certificates of title for easements, showing title vested in the United States, shall be in the form attached hereto, ENG Form 1017."

§ 644.63 Contracting for title evidence.

(a) Survey of area and source of title evidence. Contemporaneously with the preparation of the real estate design memorandum, or real estate planning report, the Division or District Engineer is requested to:

(1) Give careful consideration to the problems involved to determine the most acceptable type of title evidence, its source, availability of title plants, costs, and time of procurement, so that the most advantageous bid(s) may be received and accepted and the acquisition schedule maintained. In considering costs of abstracts of title versus certificates of title or title insurance, the workhours involved in the examination of abstracts of title by both Corps and Department of Justice personnel should be considered.

(2) Determine the total number of tracks in the project area. In major projects, it may be desirable to invite bids for title evidence for each county or other specified areas, in addition to the entire project, in order to maintain the acquisition schedule.

(3) Determine the names and addresses of title companies and abstractors available to furnish title evidence and whether such companies or abstractors have been approved by the Attorney General as acceptable companies or abstractors. Current information on approved title companies and abstractors may be obtained direct from the Land and Natural Resources Division, Department of Justice, WASH DC 20530.

(b) Selection procedure. (1) Normally selection of persons or firms to perform
