§ 138.85 Implementation schedule for amendments to applicable amounts by regulation.

Each operator of a vessel described in §138.15 must establish evidence of financial responsibility acceptable to the Director, NPFC, in an amount equal to or greater than the total applicable amounts determined under §138.80(f), by not later than January 15, 2009. In the event an applicable amount determined under §138.80(f) is thereafter amended by regulation, each operator of a vessel described in §138.15 must establish evidence of financial responsibility acceptable to the Director, NPFC, in an amount equal to or greater than the amended total applicable amount, by not later than 90 days after the effective date of the final rule, unless another date is required by statute or specified in the amending regulation.

§ 138.90 Individual and Fleet Certificates.

(a) The Director, NPFC, issues an individual Certificate for each vessel listed on a completed Application or request for renewal when the Director, NPFC, determines that acceptable evidence of financial responsibility has been provided and appropriate fees have been paid, except where a Fleet Certificate is issued under this section or where a Master Certificate is issued under §138.110. Each Certificate of any type issued under this subpart is issued only in the name of a vessel operator and is effective for not more than 3 years from the date of issuance, as indicated on each Certificate. An authorized official of the applicant may submit to the Director, NPFC, a letter requesting that additional vessels be added to a previously submitted Application for an individual Certificate. The letter must set forth all information required in item 5 of the Application form. The authorized official must also file, or cause to be filed with the Director, NPFC, acceptable evidence of financial responsibility, if required, and must pay all applicable certification fees for the additional vessels.

(b) An operator of a fleet of two or more barges that are not tank vessels and that from time to time may be subject to this subpart (e.g., a hopper barge over 300 gross tons when carrying oily metal shavings or similar cargo) may apply to the Director, NPFC, for issuance of a Fleet Certificate, so long as the operator of such a fleet is a self-insurer or arranges with an acceptable guarantor to cover, automatically, all such barges for which the operator may from time to time be responsible.

(c) A person must not make any alteration on any copy of a Certificate issued under this subpart.

(d) If, at any time after a Certificate has been issued, a certificant becomes aware of a change in any of the facts contained in the Application or supporting documentation, the certificant must notify the Director, NPFC, in writing within 10 days of becoming aware of the change. A vessel or operator name change or change of a guarantor must be reported by the operator as soon as possible by telefax or other electronic means to the Director, NPFC, and followed by a written notice sent within 3 business days. (See, §138.45, Where to apply for and renew Certificates, for contact information).

(e) Except as provided in §138.90(f), at the moment a certificant ceases to be the operator of a vessel for any reason, including a vessel that is scrapped or transferred to a new operator, the individual Certificate naming the vessel is void and its further use is prohibited. In that case, the certificant must, within 10 business days of the Certificate becoming void, submit the following information in writing to the Director, NPFC:

1) The number of the individual Certificate and the name of the vessel.
2) The date and reason why the certificant ceased to be the operator of the vessel.
3) The location of the vessel on the date the certificant ceased to be the operator.
4) The name and mailing address of the person to whom the vessel was sold or transferred.
5) In the event of the temporary transfer of custody of an unmanned barge with a Certificate under this subpart, where the certificant transferring the barge continues to be liable under the Acts and continues to maintain on
file with the Director, NPFC, acceptable evidence of financial responsibility with respect to the barge, the existing Certificate remains in effect in respect to that vessel, and a temporary new Certificate is not required for the vessel. The temporary transferee is encouraged to require the transferring certificant to acknowledge in writing that the transferring certificant agrees to remain responsible for pollution liabilities.

§ 138.100 Non-owning operator’s responsibility for identification.

(a) Each operator that is not an owner of a vessel with a Certificate under this subpart, other than an unmanned barge, must ensure that the original or a legible copy of the demise charter-party (or other written document on the owner’s letterhead, signed by the vessel owner, which specifically identifies the vessel operator named on the Certificate) is maintained on board the vessel.

(b) The demise charter-party or other document required by paragraph (a) of this section must be presented, upon request, for examination and copying, to a United States Government official.

§ 138.110 Master Certificates.

(a) A contractor or other person who is responsible for a vessel in the capacity of a builder, scrapper, lessor, or seller (including a repairer who agrees to be responsible for a vessel under its custody) may apply for a Master Certificate instead of applying for an individual Certificate or Fleet Certificate for each vessel. A Master Certificate covers all of the vessels subject to this subpart held by the applicant solely for purposes of construction, repair, scrapping, lease, or sale. A vessel which is being operated commercially in any business venture, including the business of building, repairing, scrapping, leasing, or selling (e.g., a slop barge used by a shipyard) cannot be covered by a Master Certificate. Any vessel for which a Certificate is required, but which is not eligible for a Master Certificate, must be covered by either an Individual Certificate or a Fleet Certificate.

(b) An applicant for a Master Certificate must submit an Application form in the manner prescribed by §§138.40 through 138.60. An applicant must establish evidence of financial responsibility in accordance with §138.80, by submission, for example, of an acceptable Master Insurance Guaranty Form, Surety Bond Guaranty Form, Master Financial Guaranty Form, or acceptable self-insurance documentation. An Application for a Master Certificate must be completed in full, except for Item 5. The applicant must make the following statement in Item 5: “This is an application for a Master Certificate. The largest tank vessel to be covered by this application is [insert applicable gross tons] gross tons. The largest vessel other than a tank vessel is [insert applicable gross tons] gross tons.’’ The dollar amount of financial responsibility evidenced by the applicant must be sufficient to meet the amount required under this subpart.

(c) Each Master Certificate issued by the Director, NPFC, indicates—

(1) The name of the applicant (i.e., the builder, repairer, scrapper, lessor, or seller);

(2) The date of issuance and termination, encompassing a period of not more than 3 years; and

(3) The gross tons of the largest tank vessel and gross tons of the largest vessel other than a tank vessel eligible for coverage by that Master Certificate. (The Master Certificate does not identify the name of each vessel covered by the Certificate.)

(d) Each additional vessel which does not exceed the respective tonnages indicated on the Master Certificate and which is eligible for coverage by a Master Certificate is automatically covered by that Master Certificate. Before acquiring a vessel, by any means, including conversion of an existing vessel, that would have the effect of increasing the certificant’s required applicable amount of financial responsibility (above that provided for issuance of the existing Master Certificate), the certificant must submit to the Director, NPFC, the following:

(1) Evidence of increased financial responsibility.

(2) A new certification fee.

(3) Either a new Application or a letter amending the existing Application to reflect the new gross tonnage which
